## GOOD SHOES

vs.

## POOR SHOES

Kreamer's is the place to buy shoes for many reasons, the first and most important being that he does not keep poor shoes to be sold at special sales but relying upon his judgment gained by many years of experience, he buys only such brands that he knows have the value. Cheap shoes are made to sell and good shoes made to wear and the popular demand for something cheap has caused many stores to give their customers poor shoes. Such is not Kreamer's policy. He wants to sell good shoes only, those that will be worth the selling price, thereby pleasing and satisfying the trade, and he keeps the prices down, only allowing for himself a fair margin of profit.
