

Easy to Regulate

NO air can enter except thru the lower draft. Temperature of the room may be varied to suit by merely adjusting the screw cap.

COLE'S Original Air-Tight Wood Heater

is double seamed in every joint. There are no putty joints to crack and leak air after a few weeks' use. Since fire can burn no faster than it gets air you can readily see why with this remarkable construction Cole's Original Air-Tight Wood Heaters stand at the top.

We have one to suit your needs. Come in before our supply is exhausted.

J. D. Hibbs & Co.

MICHELIN Casings and Tubes

We have all sizes of Cord and Fabric Casing in stock. Also the MICHELIN ring-shaped Tubes. Remember this—MICHELIN Tubes are ring-shaped. All others are straight. In selecting Tubes, therefore, it is important for you to know whether the tube is naturally straight or naturally ring-shaped. You can determine this by holding the tube up while deflated. Straight tubes hang straight. MICHELIN Tubes, which are ring-shaped, hang in a decided curve. The world-wide reputation of the house of MICHELIN, the oldest and most experienced of all tire makers, is your assurance that only the best of materials are used in MICHELIN'S.

WEED CHAINS in all sizes.

We are now equipped to re-grind crank shafts. We do not have to take the crank shaft out of motor. Auto truck and tractor repairing and overhauling.

HALLADAY & JUSTIN MOTOR CAR REPAIRING

CITY AND COUNTRY

Jess Whiteaker and Kenneth Honeyman motored to Portland the first of the week.

Miss Bessie Swope was home last week end from Eugene where she is an instructor in the schools. She is delighted with her work and general surroundings.

Profiteering in Clothing

You hear a lot about profiteering in clothing. Wherever it exists it can't be condemned too severely. Something ought to be said, however, for the merchants who have been taking only a fair profit; merchants who have tried to help their customers meet high costs. There are many such merchants. We are meeting the situation fairly and squarely with nothing but good quality because we know it is economy. When we couldn't get enough fine goods we turned down sales rather than sell "cheap" stuff. We cut our margins of profit in order to help relieve the strain of high prices. We say to our customers, "Come back and get your money if you are not satisfied."
