MICHELIN Casings and Tubes

We have all sizes of Cord and Fabric Casing in stock. Also the MICHELIN ring-shaped Tubes. Remember this—MICHELIN Tubes are ring-shaped. All others are straight. In selecting Tubes, therefore, it is important for you to know whether the tube is naturally straight or naturally ring-shaped. You can determine this by holding the tube up while deflated. Straight tubes hang straight. MICHELIN Tubes, which are ring-shaped, hang in a decided curve.

The world-wide reputation of the house of MICHELIN, the oldest and most experienced of all tire makers, is your assurance that only the best of materials are used in MICHELIN'S.

WEED CHAINS in all sizes.

We are now equipped to re-grind crank shafts. We do not have to take the crank shaft out of motor. Auto truck and tractor repairing and overhauling.

Profiteering in Clothing

You hear a lot about profiteering in clothing. Wherever it exists it can't be condemned too severely. Something ought to be said, however, for the merchants who have been taking only a fair profit; merchants who have tried to help their customers meet high costs. There are many such merchants. We are meeting the situation fairly and squarely with nothing but good quality because we know it is economy. When we couldn't get enough fine goods we turned down sales rather than sell "cheap" stuff. We cut our margins of profit in order to help relieve the strain of high prices. We say to our customers, "Come back and get your money if you are not satisfied."

"Capital and Industry--Keep Out!"

WOULD YOU, AS A PATRIOTIC CITIZEN OF OREGON, PLACE SUCH A SIGN ON THE BORDERS OF THE STATE?

That is exactly what you will help to do if you do nothing to prevent the passage of measure No. 314 and 315 on the November ballot entitled, "Constitutional Amendment Fixing Legal Rate of Interest in Oregon."

This measure proposes to limit the rate of interest in Oregon to 5 per cent. You can, by law, fix the rate of interest in Oregon, but you cannot, by law, force the loaning of money in this state, when a much higher rate can be secured elsewhere. The passage of this measure would force the withdrawal of the millions of foreign capital which is today loaned on factories, business and real estate in the state and send your local money owners outside of the state to better investments.

Passage of this measure would mean foreclosure of thousands of mortgages; would result in financial paralysis, and would mean widespread unemployment.

You, no doubt, understand the viciousness of this measure, but have you talked to your neighbors and friends about it? We urge you to do everything you can to defeat this measure. Oregon's reputation as a sound state for investments requires that this measure be overwhelmingly defeated.
