MICHELIN Casings and Tubes

We have all sizes of Cord and Fabric Casing in stock. Also the MICHELIN ring-shaped Tubes. Remember this—MICHELIN Tubes are ring-shaped. All others are straight. In selecting Tubes, therefore, it is important for you to know whether the tube is naturally straight or naturally ring-shaped. You can determine this by holding the tube up while deflated. Straight tubes hang straight. MICHELIN Tubes, which are ring-shaped, hang in a decided curve.

The world-wide reputation of the house of MICHELIN, the oldest and most experienced of all tire makers, is your assurance that only the best of materials are used in MICHELIN'S.

Depended Upon Underwear

There was a man by the name of Jacoby who never wore an overcoat, coat or vest except on special occasions. He was just as comfortable in the coldest days of winter as he would be in the summer time. How could he do it? He begun the habit when a youth and depended upon underwear to keep him warm. He was as particular about his underwear as most men are their suits. Underwear is just as important in keeping the body warm as any other article of clothing. Its main use is not keeping the body from "scratching" on the outside clothing as some assume. This store keeps an unusually large variety constantly on hand. Thick, thin and medium—all qualities—all styles.

Owls Hooting Again
The "Owls" were out again Monday night for the first time since their adjournment for the summer. They gathered at the home of Mr. and Mrs. L. Damon where genuine hospitality was dispensed thruout the evening. Four tables of players indulged in whist and at a late hour Mrs. Damon served a tempting luncheon.

Miss Kreamer Promoted
After teaching a week in the Richmond school in Salem, Miss Gretchen Kreamer was elected music supervisor of the junior high and grade school of the Capital City. This recognition of her ability came as a surprise to Miss Kreamer as it was unsought. She has held a similar position in Astoria where she was extremely popular. Her friends are delighted that her advancement has been so rapid.

Deer Hunters Return
When C. O. Stoper, J. W. Dimick and Ralph Lovering returned from their hunt-trip in southern Oregon they were not empty handed for each of the sportsmen bagged two deer, consequently the ladies of the families have been busy preparing the venison for winter. While away the party made headquarters with Mr. and Mrs. J. J. Neely of Days Creek, former Independence people. The Neelys were happy to give the Independence hunters inside information as to where big game was hibernating and the trip was a most delightful one for all concerned.

Lots Doing at Hopville
The Hopville district is becoming very active and already has many splendid things to its credit. Since Mrs. G. W. Conkey opened school there a few weeks ago a soup kitchen has been in operation. The board has supplied equipment and under the supervision of Mrs. Conkey the older girls have kept things going in a creditable manner. Last Friday a Parent-Teachers association was organized with a full membership. The community spirit has been aroused and everywhere there is splendid co-operation which will insure success. Officers elected for the P. T. club are: Mrs. Moore, president; Mrs. Ralph Porterfield, vice president and Miss Watzling secretary and treasurer. After completing the organization the girls served dainty refreshments which they had prepared. This is a capable corps of officers and we will watch with interest the outcome of the Hopville P. T. association. There are about 50 students in school and Mrs. Conkey is assisted by Miss Watzling of Salem.

"Capital and Industry--Keep Out!"

WOULD YOU, AS A PATRIOTIC CITIZEN OF OREGON, PLACE SUCH
A SIGN ON THE BORDERS OF THE STATE?

That is exactly what you will help to do if you do nothing to prevent the passage of measure No. 314 and 315 on the November ballot entitled, "Constitutional Amendment Fixing Legal Rate of Interest in Oregon."

This measure proposes to limit the rate of interest in Oregon to 5 per cent. You can, by law, fix the rate of interest in Oregon, but you cannot, by law, force the loaning of money in this state, when a much higher rate can be secured elsewhere. The passage of this measure would force the withdrawal of the millions of foreign capital which is today loaned on factories, business and real estate in the state and send your local money owners outside of the state to better investments.

Passage of this measure would mean foreclosure of thousands of mortgages; would result in financial paralysis, and would mean widespread unemployment.

You, no doubt, understand the viciousness of this measure, but have you talked to your neighbors and friends about it? We urge you to do everything you can to defeat this measure. Oregon's reputation as a sound state for investments requires that this measure be overwhelmingly defeated.
