

Another Royal Suggestion COOKIES and DROP CAKES From the NEW ROYAL COOK BOOK

WHEN the children romp in hunger, here are some wholesome delights that will satisfy the most ravenous appetite.

Cookies
1/2 cup shortening
1/2 cup sugar
1/2 cup milk
1 egg
1/2 teaspoon grated nutmeg
1 teaspoon vanilla extract
or grated rind of 1 lemon
4 cups flour
3 teaspoons Royal Baking Powder
Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and vanilla; add 2 cups flour sifted with baking powder; add enough more flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 12 minutes in hot oven.

Cocoa Drop Cakes
4 tablespoons shortening
1 cup sugar
1 egg
1/2 cup milk
1 1/2 cups flour
3 teaspoons Royal Baking Powder
1/2 cup cocoa
1/2 teaspoon salt
1 teaspoon vanilla
Cream shortening; add sugar and well-beaten egg; beat well and add milk slowly; sift flour, baking powder, salt and cocoa into mixture; stir until smooth, add vanilla. Put one tablespoon of batter into each greased muffin tin and bake in moderate oven about 20 minutes. Cover with boiled icing.

Kreamer Elected Also

Kreamer is among those elected to assist in lowering prices, and he is offering great values on fine clothes. "Lower prices" is the order of the day. His goods are marked very low. His profit won't be very much but yours will be unusually big. He is selling fine goods on a close basis. What he loses in profits will be made up in increased patronage. Satisfaction guaranteed in value, fit, style, wear. Suits, (including those made to order by the world's largest tailoring houses), overcoats, hats, shirts, underwear and shoes are all being sold at a small profit. Come to Kreamer's store and get prices; go to other towns and get prices. Then you'll come back and buy of

ROAD BUILDING

HIGHWAYS ON PACIFIC COAST

Interesting Figures Secured by California Experts on Pull Required to Move Wagon.

An energetic and influential organization on the Pacific coast, the California State Automobile association, has carried on some investigations affording definite figures of the value of good roads. It secured the help of Prof. J. B. Davidson of the University of California and Austin B. Fletcher, state highway engineer, in carrying on a large number of tests of the pull required to move a standard farm wagon loaded to make the gross weight 6,000 pounds. This wagon was hauled in some cases by a two-ton truck and in other cases by a team of good draft horses, weighing about 1,600 pounds each.

Tests have shown that a pull of 27 to 30 pounds per ton of gross load was needed to haul the wagon on unsurfaced concrete roads. When the concrete was surfaced with oil and screenings the pull was increased to about 50 pounds. About 65 pounds were needed for hauling on water-bound macadam and on bituminous concrete laid on top of cement concrete. On good gravel roads a pull of 65 to 82 pounds was needed, while on loose gravel the pull was 263 pounds, the highest record in any of the tests. About 80 pounds were required for hauling on bituminous macadam. On earth roads 92 pounds were required for hauling over a good surface covered with 1 1/2 inches of loose dust, 99 pounds over an ordi-

nary dirt road with dust 3 inches deep in places, and 218 pounds over a muddy earth road.

The significance of these figures lies in the fact that on a good earth road it is necessary to exert three times the pull that is required on a concrete road, and nearly twice the pull required on a macadam road. Furthermore, when the earth road becomes muddy, a condition which does not affect traffic on good pavements, the pull is more than doubled.

ROADS INDEX OF CHARACTER

Determine Importance of Country, Limiting or Aiding Its Advance—Should Be Built.

The roads are an index of the character of any country, determining its importance and limiting or aiding its advance. A country that isn't worth a good road isn't worth what its land sells for and soon won't be worth living in. No community that has ever improved its roads, has ever regretted it, for road improvement is a good investment for any community. Since the roads are for all the people, they should be built by all the people—with state and federal aid.

MOTOR TRAFFIC IS GREATER

Significant Feature of Road Development Is Construction of Better Surfaces.

A most significant feature of road development is the construction of better surfaces as a result of automobile traffic, for it is estimated that there are approximately 2,500,000 autos in use on the roads of the country, or one car for every mile of road. The motor traffic is greater than traffic of all kinds 12 years ago.

Urges Permanent Roads. That road-building along permanent lines should be prosecuted as a part of our national war program was the determination of the chamber of commerce of the United States, at its meeting held at Atlantic City, N. J.

Roads Expand in Winter. Concrete roads expand most in winter and contract most in summer, according to the United States bureau of standards, because of increases or decreases in the moisture they con-
