

Another Royal Suggestion
PIES and PASTRIES
From the NEW ROYAL COOK BOOK

THERE is no further reason for worrying about table variety. The New Royal Cook Book gives new suggestions for every meal every day. The book is so full of surprises there should never be another dull meal in the home.

Custard Pie
1 cup pastry flour
1/2 teaspoon Royal Baking Powder
1/4 teaspoon salt
1/2 cup shortening
cold water

Sift flour, baking powder and salt; add one-half shortening and rub in lightly with fingers; add water slowly until of right consistency to roll out. Roll out very thin; put on in small pieces remaining shortening; fold upper and lower edges in to center; fold sides in to center again; roll out thin and put on pie plate.

Custard
3 eggs
1/2 cup sugar
1/2 teaspoon salt
2 cups scalded milk
1 teaspoon vanilla extract

Beat eggs, add sugar, salt, flavoring and milk very slowly. Line pie plate with paste made as above, and bake in very hot oven about 10 minutes. Pour custard into the baked crust and bake in moderate oven about 25 minutes. The pie is done when a knife put in center of custard comes out dry.

Cocoanut Pie is made the same way, adding 1 cup of shredded cocoanut, and using only 2 eggs.

Doll Up For Thanksgiving

Turkey Day or Duck Day as it has been more proper to say in late years, is an occasion to dress up. Rich or poor put on the best they have and mingle with relatives and friends the whole day long, forgetting for the time being, the worries and business or working end of life. You'll be needing a suit or part of a suit, hat, shirt, shoes or a necktie to complete your Thanksgiving turnout and Kreamer is waiting for you to come in and designate your choice. Whatever your want it is going to be sold to you at a price as low as anywhere, quality considered, and backed up with a positive guarantee of being worth the price or more. So doll up at Kreamers for Thanksgiving and have a happy day.

O. A. Kreamer

will supply the demand for Thanksgiving fowls.

Mr. and Mrs. O. Martin of Caroline, Alberta, Canada were guests of their daughter, Mrs. Homer Hill, this week. Mr. and Mrs. Martin were on their way to Roseburg where the latter will pass the winter. Mr. Martin will return to his northern home after a short visit in the South. They report an unusually pleasant winter in Alberta, mercury having dropped to zero only once or twice this winter.

Mr. and Mrs. J. J. Neely were in Independence this week, accompanied by their son, William, and packed up their household goods and left today for Days Creek, Douglas county, where they will reside in the future. Their departure is much regretted. While here their daughter, Mrs. Pallie Gibson of Spokane, came and there was quite a family gathering to bid the old home farewell. The Post will keep them posted on Independence.

Quantity Production Makes Ford Prices Possible

Ford car production the coming year will require over

- 634,375 tons of steel
- 250,000 tons of coal for power, gas and heat
- 10,000,000 gallons of fuel oil for treating steel
- 172,500,000 feet copper tubing for radiators
- 81,875,000 square feet of rubber cloth for tops
- 66,725,000 square feet of steel for fenders and guards
- 12,400,000 square feet galvanized metal for gas tanks
- 7,287,500 square feet of plate glass for windshields
- 5,000,000 wheels and 5,000,000 tires
- 3,750,000 lamps
- 43,000 miles of wire for magnetos.

These figures, covering only a few items, show what Ford production of 1,250,000 cars means—in purchasing power and in efficiency of handling methods.

Regardless of marvelous efficiency in the past, Ford production methods must be revolutionized the coming year to make the new cut prices possible. But Mr. Ford cuts the price first, and then makes that cut possible by increasing efficiency and eliminating waste.

You get the benefit. Take advantage of what the Ford production methods offer you and get your Ford car now.
