Personality.

The greatest and most vital power in influencing life is personality. It is greater than law, instruction or example.—Lyman Abbott.

Folly of Selfishness.

To be selfish is to be ignoble—to repose on a lower platform for lower gain, when you might choose a higher. To be selfish is to sacrifice the nobler for the meaner ends, and to be sordidly content.—H. R. Haweis.

GROWING TIMBER WILL PAY WELL

Farmers Owning Small Tracts Will Find It Advantageous to Market Crops Together.

CASE IN NORTHWEST CITED

When Care Is Exercised in Selecting and Cutting a Woodlot May Be Made Source of Income for an Indefinite Period.

With the help of the Forest Service and the county agent, a number of farmers who live in Hangman Valley, Wash., just north of the Palouse Division of the St. Joe Forest, are cooperating this year in the sale of about 300,000,000 feet of timber.

Last fall the Forest Service was requested to aid these farmers in disposing of a considerable amount of timber on their claims. It developed that there were approximately 200 settlers who owned about 300,000,000 feet of timber which they desired to dispose of as a unit in order to attract some company capable of handling the entire proposition. They were, however, unable to agree upon a satisfactory price. The project had been worked up by the local county agent, a former Forest Service man, from whom the request for help came.

Not Needed for Crops.

The Forest Service agreed to make an appraisal of the timber and to assist in drawing up a contract and sale conditions. The appraisal was made last spring and a price fixed of about \$3.50 per thousand feet. Although the land is well adapted to agriculture, it will not be possible for the owners to put all of it into cultivation for a number of years. Consequently it is to their advantage to devote it to growing timber until such time as it is needed for raising crops. The stand consists of yellow pine of a good quality and contains a large number of trees just below merchantable size which will make rapid growth when the old timber is removed. It is distinctly a case where it will pay the farmers to grow trees. These facts were explained to the members of the association and they quickly saw the advantage of handling the forest in the manner recommended.

"Swan Songs."

There is an old superstition that the swan breaks into song at the approach of death. Hence the expression "swan song" is often used to refer to a last poem or musical work written just before the composer's death. The expression has also extended to apply to the last speech of a politician before being forced into obscurity.

How it Sounded to Him.

At a big railway station a four-year-old youngster wonderingly watched the man step out on the balcony and call the stations of the outgoing train through a megaphone. When the announcer finished and resumed his seat the youngster pulled at his mother's hand, "Oh, mamma," he said, "ask the man to sing another song!"

Just Like Home.

Mother and I went into a drug store and ordered chocolate sundaes. "When finished I piled up the dishes, as I had been taught to do at home, and carried them to the counter. Of course, everyone smiled and I realized what I had done. It didn't take me long to get out of the store.—Exchange.

Memorial to an Apple.

There is a monument of stones with a bronze tablet which marks the spot where the York Imperial apple was developed from a seedling 100 years ago. The monument is erected on a farm along the Baltimore pike, two miles from York, Pa., and was dedicated a few days ago.

The Gambling Instinct.

The gambling instinct is in nearly every energetic, ambitious person, and few can resist the temptation to back a "sure thing." There is nothing amazing about investors taking a chance at any scheme. The amazing thing is human nature.—Indianapolis News.

The Cuticura Toilet Trio

Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them. 25c everywhere.—Adv.

Symbol of Holy Roman Empire.

The double-headed eagle of the Holy Roman empire was sometimes crowned and sometimes bore the nimbus upon it. The dual heads represented dominion over the east and the west and came to be used in the coat of arms of both Austria and Russia.

A Nursery King.

"Old King Cole," beloved of the nursery, was a British king who lived about A. D. 300. His accession was hailed with joy. To this day a large earthwork at Colchester is called "King Cole's Kitchen."

Farm Woodland After Thinning.

Vagrant Philosophy.

"What a lot of uninteresting people we can see on the streets," remarked the Occasional Philosopher. "And, to be fair, I suppose I am one of them."

In Praise of Early Rising.

I was always an early riser. Happy the man who is. Every morning day comes to him with a virgin's love, full of bloom and freshness. The youth of nature is contagious, like the gladness of a happy child.—Bulwer-Lytton.

Always Sure to Please.

Jud Tunkins says a campaign speaker is always sure of applause because most of his audience is already on his side of the argument.

That Elusive Elf, Opportunity.

If that sensitive elf, Opportunity, comes knocking at your door, don't wait a minute; let him in, or he'll never seek you more.

Early Mesmerism.

Braidism is an old name for hypnotism, derived from James Braid, who invented this species of mesmerism in 1843.

Feels His Importance.

When he casts his first vote a young man wonders how the world would change to get along if he were to die.

PREVENT SPREAD OF DISEASE

Of Greatest Importance That Carcasses of Dead Animals Be Buried or Burned.

When it is considered that the spores of anthrax may be distributed to live stock through the feces of cats, dogs, hogs, chickens and flies it is more readily apparent that carcasses of animals dead of disease should be buried as speedily as possible. Most of these disease carriers come in close contact with the larger domestic animals and thus the direct transmission of germs from their body surfaces is possible and also it is known that they are more than likely to contaminate water courses. It is possible that many cases of anthrax may be attributed to the common house fly.

QUITTE EXPENSIVE OATS

The actual cost of producing a bushel of oats in Missouri this year was 75 cents, which does not include 7 cents a bushel for hauling to the elevator. The rent was figured at \$6.83, cost of planting at \$6.08 and the cost of harvesting at \$7.71 per acre, or a total cost of \$20.68, which yields 27 1/2 bushels.
