#### ALIEN GIRLS SOLD, IS CHARGE

Highest Bidders Get Armenian Immigrants, Immigration Commissioner Says.

Fresno, Cal.—The arrest of seven Armenian girls and a prominent Armenian rancher of Lone Star, near here, revealed a plot by which Armenian girls are brought into the United States and sold to the highest bidder, according to George W. Moore, United States immigration commissioner.

Moore said in one case a young Armenian inspected the girls held for sale and paid a deposit on one who pleased him.

The commissioner said the case was typical of many in which the girls were made marriage slaves.

#### Lew A. Cates Leaves

Marshfield Daily News

Dallas—A letter from Lew A. Cates states that he has severed his connection with the Marshfield Daily News, which he has been managing. Mr. Cates also says that he and Mrs. Cates expect to spend the summer in Coos and Curry counties.

#### No Injury to Fruit

By Frost in Polk Co.

Dallas—While reports of frost damage are coming in from the middle west, and even from California, it has been proven that the recent slight visit of happy Jack did little or no damage to the fruit in Polk county. Peach and cherry growers join in saying that a close inspection of buds fails to disclose any material killing. More fruit is left on the trees than can be carried and in the case of peaches, there must be a decided thinning to get the best fruit.

Bishop W. H. Lambuth, in charge of the Methodist missions in North China, where 45,000,000 are faced with starvation as the result of a disastrous flood followed by two seasons of drouth, says:

"Their clothes are ragged and scanty: Their only food is a gruel made of weeds, leaves, chaff and corn-cobs. One cold night in January in one refugee camp alone, one thousand of these starved, weakened human creatures froze to death. What is to be done must be done within the next five months, yes, within the next two or three months. Otherwise millions will perish."

The death rate in the famine section is estimated at 15,000 daily, with typhus and other diseases beginning to rage. The only hope of the despairing millions is in food supplies provided in tremendous quantities by the people of the United States.
