SHORT STORIES OF TOWN AND COUNTRY

F. D. Barrows was in Portland this week.

Mrs. Bicknell of Portland has been visiting Mrs. Homer Hill.

Way Down East—Last performance at the Grand in Salem Saturday evening.

J. B. Ewing returned yesterday from a several days' visit spent in California.

Printing done as printing should be done. —The Post.

Wanted — Solicitor for silver plating. Call on G. W. Thorington, 188 C street.

Mr. Deeth of Portland was a week end guest at the George Girard home.

Mrs. O. L. Foster, who left Portland Monday for an extended visit with relatives in the East, arrived in Colorado Springs Wednesday and by wire reports a delightful trip.

Mrs. George Girard has had the misfortune to lose the diamond from her ring. She has abandoned the hope of finding the loose stone.

Mitch Butler was here from Portland Wednesday. Mr. Butler connected with the Oregon Casualty and Surety Co. and was returning from a vacation at Newport.

Mrs. Helen Kirkland is here visiting friends and relatives.

Paul Hall, from Illinois, who has been a house guest at the W. H. Craven home, has gone to California to further tour the West.

Q. G. Reeves has returned to Portland after a visit with his parents. He was accompanied by Willard Reeves and Evelyn and Hulda Kurre who will visit their aunt, Mrs. G. Newton.

Pearl Alexander, formerly of this place expects to operate a grocery store in the Beaver block on Main street. Mr. Alexander has been in Montana for several years but is happy to be in Oregon again.

Little Zane Becker celebrated his first natal day last Monday. "Auntie Mel", grand-dad and a number of others contributed pleasing gifts to the happy youngster, who at the time manifested the same spirit of intellectual expression his name might imply.

To Place Signs On Independence Roads

Herbert Nunn, state highway engineer, has ordered the resident engineer of state highways at Independence to place signs at all points where they are needed, along the Independence-Albany and Independence-Corvallis road, according to information received today by Sydney B. Vincent, manager of the Oregon Tourist and Information bureau. The signs will remedy a condition, that has caused many complaints from tourists.

G. W. Thorington has just arrived from Newburg and is located at 188 C street. Mr. Thorington is an expert in furniture upholstery and repairing. He carries samples for new coverings. He also re-plates silverware which will look so well you'll think your chest is full of new silver.

A Dallas band, advertising the carnival there, played on the streets here Wednesday night and put a little "jazz" into the listeners.

Local Realtors Send Representative East

The Independence Realty Co. is "up and doing." Realizing that procrastination is not only the thief of time but also the destroyer of prosperity, these realtors are evincing the real booster spirit by sending a representative East who will distribute literature and talk the wonders of our beloved Oregon to the less fortunate. The spirit of the 1925 Exposition will soon become a contagion and the Independence Realty Co. is beginning in time.

Tuesday afternoon a man who had purchased a car in Salem the day before started into the Independence Garage and found that the small door at the entrance was by far too small. The door is only 20 feet. He missed the door and ran through the glass at the side of the garage. The rear wheel striking the high curb and killing the engine was all that saved the entire structure from annihilation. Of course there should be a law passed to make it a crime (?) for garages to have as small an entrance as 20 feet. The accident, while comical as it was, might have been serious. However, it may be a good lesson to the owner and save a more serious accident in the future.

B. F. Mills and his automobile were taken by Sheriff Orr yesterday morning. The car contained 20 gallons of moonshine. In Justice Court here Mills pleaded guilty to having the

liquor in his possession but said he was carrying it for other parties. Sheriff Orr is holding the automobile and moonshine and will turn them over to the federal authorities.

Bargain

Brand new Sampson Tractor. Plowed only 30 acres. Will sell at a sacrifice. For terms and particulars see

Ford and Fordson Dealers

"FLYING SICKNESS."

Two theories are cited in the Scientific American to account for flying sickness. The French school, headed by Professors Bert and Regnard, holds that it is caused by shortage of oxygen, while the Italian school, led by Professor Mosso, maintains that shortage of oxygen does not of itself account for the sickness, but that collapse is due to lack of carbonic acid in the blood at high altitudes. Up to 9,000 meters, application of oxygen will overcome the sickness, but above that height a mixture containing carbon dioxide and oxygen is necessary.

Reminders
