A. G. Byers and family and Arthur Moore and family returned from a fishing trip on Salmon river Tuesday a week ago. They were gone 14 days, and from the small amount of noise they have made we would venture the guess they brought back 14 fish. Byers stated there was a railroad survey from Willamina to Bear Camp, down Salmon river until it reaches Pitner, Rose Lodge, Round Prairie and on down the Siletz Basin to near Devil's Lake. This survey he says is a Great Northern or Electric proposition. The Southern Pacific have a survey from Newport north to the Siletz. These surveys seem to be strictly independent of the lines from Independence to the Siletz country.
