## A STately COLONIAL DESIGN.

Design 691, by Glenn L. Saxton, Architect, Minneapolis, Minn.

Copyright, 1912, by Glenn L. Saxton.  
 PERSPECTIVE VIEW—FROM A PHOTOGRAPH.

FIRST FLOOR PLAN. SECOND FLOOR PLAN.

The interior of this colonial is artistically arranged with reception hall, stairway, fireplace, etc. The rooms are all medium size. First story finish in red oak or birch; second story finish in pine to paint. Floors throughout first and second story are birch or maple floors. There are two screened piazzas designed for this residence—one on the first story in rear of the dining room and one in second story out from front side chamber. The one in second story is especially arranged for a sleeping porch. This house would cost to build, exclusive of heating and plumbing, \$5,500. Size thirty-four feet wide and forty-five feet six inches deep over all.  
 Upon receipt of \$1 the publisher of this paper will supply Saxton's book of plans, "American Dwellings." It contains 254 new and up to date designs of cottages, bungalows and residences costing from \$1,000 to \$6,000.
