What to Eat

YOUR daily problem of what to eat is very easily solved—

Pass it on to us. It is not what you eat that has alone to be considered—it is the quality of what you eat. It is easy to say "Let's have some special dish for dinner," but the mere buying of the materials for that dish does not make your dinner a success. You must have the best of everything to get the fullest enjoyment from the meal. Our reputation is built on selling the best of groceries. We have studied the "what to eat" problem for our own sake as well as yours. Come in and let us talk it over.
