### Notice to Telephone Users

Owing to the fact that from time to time we are obliged to employ new operators, who are unfamiliar with both names and numbers of telephone users, it becomes absolutely necessary that we require you to call by number and that you be careful to state whether it is a "Main" or "Farm" number, giving the word "Main" or "Farm" before the number. You will have no longer to wait if you look up the number yourself than if the operator has to take the time to do it for you, which requires not only you but possibly several others to wait.

A few numbers are incorrect in the directory and some have been changed since it was issued, therefore it may happen that you get the wrong number, in which case notify the operator who will give you the correct number, a notation of which you can make in your directory.

If you will exercise as much patience with us in making this change as we will with you, it will soon be accomplished and with but very little inconvenience to either. This change will not apply to those on farm lines until the issuance of the new directory, when they also will be required to call by number.

Very truly yours,  
INDEPENDENCE TEL. CO.  
By Clyde E. Carlson, Manager.
