

THE ARRIVAL OF SPRING

Is the most joyful time of the year and it is also the busiest. You "clean up" paint, fix fences, make garden and commence the tilling of the soil. Naturally you have to buy new machinery, new tools and other supplies. That's what we want to talk to you about. As we sell what you have to buy, we want your attention just long enough to read the rest of this "ad." By so doing you will save money, and the man who doesn't save his money these days is liable to land in the poor house.

The Farmer is on the job again

He will soon be plowing, discing, harrowing and cultivating. Should he not have any of the implements and need one, just remember that Sloper Bros. & Cockle sell the best

with less fear of burning than in any other kind, because aluminum is a better distributor of heat and retains it longer. This means a saving in fuel. And it means a saving in wear-and-tear expense, too.

"Wear-Ever" utensils are light to handle and easy to clean. They cannot form poisonous compounds with fruit acids or foods.

"Wear-Ever" utensils are made from thick, hard sheet aluminum, 99% pure, without joint, seam or solder. You can let food burn dry without injuring them. Cannot rust—cannot chip or scale—are practically indestructible.

I CAN MAKE A GOOD DAYS RUN

WITH THE REAL TOBACCO CHEW

THE AUTOMOBILIST EXULTS WITH THE GOOD JUDGE

YES, a small chew of "Right-Cut" satisfies. It's the Real Tobacco Chew.

The right blend of rich, sappy tobacco—seasoned and sweetened just enough.

That's why it gives you the tobacco comfort and solace that you like so well.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength show that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few cigs you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a ready chew, not too hot and not dried so that you won't have to grind on it with your teeth. Grinding an ordinary smoked tobacco means you spit too much.

The taste of the real tobacco does not need to be covered up with molasses and sweetener. Notice how the salt brine and the real tobacco taste is "Right-Cut".

One small chew takes the place of two big chews of the old kind.

The Washington supreme court has stopped the abuse of the "emergency clause" in that state.

Unfortunately this court has no jurisdiction in Oregon. Intended to be used only in case of present or pending war, disaster, pestilence or famine, an "emergency" is declared in Oregon whenever some legislative body wants to build a sidewalk, bury a cat or light a lantern.
