HERE'S the ready chew! You can get genuine comfort and tobacco satisfaction without having to grind all the time! "Right-Cut" is the Real Tobacco Chew that tobacco chewers are telling one another about. Pure, rich, sappy tobacco—seasoned and sweetened just enough. The taste comes along steady—and it lasts you longer than the old kind. If you like real tobacco by all means buy a pouch.

Take a very small chew—less than one of the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it and you find the strength chew that suits you. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short so that you won't have to grind it with your teeth. Grinding on ordinary tobacco means you spit too much.

The taste of rich tobacco does not need to be covered up with molasses and licorice. Notice how the rich tobacco taste is "Right-Cut."

One small chew takes the place of two big chews of the old kind.

WHAT DEWEY SAYS
Admiral George Dewey says that the United States navy is the best of its kind in the world—and it is third in size. Soon it will rank first; the rate the larger navies are being destroyed in the European war. But of course Dewey is not as well posted on naval affairs as are the editors of certain newspapers now engaged in telling their readers how absolutely defenseless this country is.—Salem Capital Journal.

BRYAN AND PEACE

If, in every capital of Europe there had been a Bryan to forward the signing of these great acts of peace, reason and justice, there would be no war in Europe, the world would be an era of good will, millions of mothers would not be agonized with the news from the trenches, civilization would be speeding forward, the wheels of industry would be revolving and the sun in its daily course would burst in glory over happy valleys, green meadows, singing birds, flowing streams and forests with their radiant colorings, all attuned to a sweet diapason of universal peace.—Portland Journal.

MAY BE WORSE

The chief danger at this moment would seem to be that Germany and Austria may wear themselves completely out licking Russia.—Chicago Herald.

Now there is a clamor that the tooth brush must go. Germs are responsible. In the good old days when we knew not germs, it seems we were just as happy and healthy; but a germ's a germ for all of that.

Congressman W. C. Humphrey, champion calamity howler of the West, is a candidate for the U. S. Senate from Washington. A blind partisan majority may elect him and then suffer for it six years after.

We refuse to believe that any nation on earth could land 100,000 men at Astoria and capture Portland. It is our belief that the male population of Portland, under the generalship of the war editor of the Oregonian, would be able to successfully block the advance, and in the meantime the remainder of the state would be tickling the invaders from the sides and rear.

In one thing at least, California is far ahead of its 47 sister states. The golden state has eliminated political parties from its local, county and state elections.
