

THE GOOD JUDGE GETS ALIVE ON THE RETIRED JUDGE.

**M**AYBE you're one of these reformed grinders yourself and know how they like to meet and talk about the little chew that satisfies. When you meet a non-member puddling a big wad in his cheek don't you feel like stopping him and giving him the facts about the *Real Tobacco Chew*?

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

ASK YOUR DEALER FOR W-B CUT CHEWING TOBACCO. IT IS THE NEW REAL TOBACCO CHEW—CUT LONG SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much. One small chew takes the place of two big chews of the old kind.

Weyman-Bruton Company, 50 Union Square, New York City

Independence, Oregon, Friday, October 1, 1915

If tobacco users are deprived of their privilege to ship in booze when the "dry" regime holds sway, old King Alcohol will receive another deadly blow. Mr. "Lady Nicotine" is more fondly cherished than the old king and in a choice between them, the weed poison would triumph.

A "country judge" has delivered a "knockout" blow to the misuse of the "emergency clause" and it is to be hoped that he will be sustained by those who have the last guess. The abuse of this law has become so common that legislative bodies attach the "emergency clause" from force of habit when they adjourn.

**OREGON'S LOGANBERRY IS NOT A LOGANBERRY SAYS WIZARD BURBANK**

Is Loganberry juice made out of Loganberries? Is the Willamette Valley producing loganberries or is it producing Phenomenal berries in disguise? Or is it the reverse? In any event, can a rose by any other name smell as sweet? Luther Burbank, who knows more about berries, caeti, potatoes and flowers than the original inventor, says the Willamette Valley loganberries are nothing of the sort. He does not spit on his hands and swear when he makes the statement, but he affirms with great affirmation that the so-called loganberries are phenomenal berries, so far ahead of loganberries that no respectable person will mention them in the same breath. Luther says the loganberry is a soft, mushy tasteless thing that will not ship, is unlovely to look upon, and produces juice with no more virtue than citrus lemonade. That's the limit in eriticism, and it has weight of authority, though there are some authorities who disagree. However, the California wizard is unconcerned with the disagreement—his name is Burbank, and that ought to be enough to satisfy anybody. And Burbank says, says he, that not until he took the little old loganberry and gave it a dose of Burbankitis did it assume any taste at all. Then somebody got hold of a sprig of his rejuvenated loganberry, which he has rechristened "Phenomenal Berry," and they took it to Oregon. It grew there at a terrific rate, and the phenomenal thing there is so very common that this new invention from California probably outgrew its name. At least the word "phenomenal" got misplaced and the wonderful big red berry that has produced the juice that William Jennings Bryan says is the best that ever happened is now known as the loganberry. The question is, is it? Who first brought the berry into Oregon, and where did he get his slip or cane? Experts here are anxious to know, so if you, dear reader, know anything about it, please send the information to "Publicity" Oregon Building—Exposition News.

Conscription farm help would be on the job at meal time, but would it be here?

Can be used on new, old or canvas covered floors. Does not soil delicate fabrics. Sprinkle it on the floor and the dancers do the rest.

## Floors Like New

Marred and worn floors are hard to clean and hard to keep clean. Half an hour's work with the paint brush changes your old shabby floors into new floors that are easy to keep clean and hard to wear out.

**ACME QUALITY**  
FLOOR PAINT (GRANITE)

is the best floor paint to use. It is made especially to be walked upon, is ready for use, easy to put on—you can do it yourself—and dries quickly. A quart will cover about 75 square feet, two coats.

Ask for a copy of our "Home Decorating" booklet. It tells you all about the use of paints, enamels, stains and finishes in the home.

still cheaper another year caused by the doing away with the speedometer, which it has proven will not be necessary to indicate the speed. The rate of speed will be known in the following manner. At ten miles an hour the lamps will rattle, at 15 miles the fenders will rattle, at 20 miles the whole machine will rattle and at 25 miles your bones will rattle. As the speedometer is an important part of the machine, the price will no doubt be greatly reduced.—Brownsville Times.
