RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and remove dandruff. It is excellent for falling hair and will make hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

Feeling like a father who trounces his son, "this hurts me more than it does you," the United States may be obliged to give Mexico a spanking. Yet we must remember that the President warned Americans several months ago that if they entered Mexico they did so at their own risk.

"Tell that fellow Gingerly not to call here any more," said paterfamilias savagely.

"What's the use, papa?" Evangeline asked.

"I say tell him not to call any more," repeated paterfamilias with increased anger.

"Why, papa, he calls seven times a week now. He can't call any more than that!"—London Tit-Bits.

Greenwich Hill.

Probably no hill in the world has had so strangely varied a history or played so important a part in the affairs of men as that at Greenwich. The granite line across the footpath on its summit is the meridian from which the longitude on every British map and chart is calculated.
