No Peace In Sight

NOW, the old farmer was grubbing out stumps in a field by the roadside and making hard work of it when I stopped the horse to ask him a question about the road. When he had answered I he asked me if I had a late newspaper in my pocket. I had one and handed it out to him, and he glanced over it and said:

"So the war is still going on, eh?"

"It certainly is. Are you much interested in the war?"

"I could read about it all day."

"But are there any other folks around here who are for peace?" I queried.

"Heaps and heaps of 'em, stranger," he replied. "How do you stand on that question?"

"I am for peace," I said.

"So'd I be," he smiled. "If me and the old woman wasn't so consistent. We have had a row and a fight about every day for the last year, and neither one of us has licked or been licked. Until that question is settled we ain't going to stand up and tell the hull of Europe that she ought stop fighting and lay down like a lamb."

THE PILL BOX

NO. 20

Editorial

The Pill Box wonders if all its intellectual readers know that New York is now the largest city in the world. Well, it is. This enterprising city has been going some for the past ten years and expects to keep right on going some until it backs into San Francisco. There is much to be thought of in connection with this spreading of New York all over the map. The city in which we live is in danger of being confiscated, swallowed up. In the opinion of the entire editorial staff of this great family newspaper, a vigilance committee should be appointed to prevent that very thing. The Pill Box hopes that it will not be obliged to ride like a Paul Revere down the streets and alleys of this city and fire the populace to force the appointment of this committee for those in authority should heed the voice of the people and the people have spoken.

Arkansas Is Slipping

There's something wrong in old Arkansas. Judge L. C. Smith has been defeated for governor. The following speech failed to fetch 'em. Instead they chose a college professor. Arkansas is slipping. Here is what Judge Smith said at Holly Grove.

"Now, should you honor me with the office of Governor, and come to Little Rock on business, after I am sworn in, and your wife should come along with you to do her shopping, drop in on your Governor; but before you leave home, if your old grip is not too full, pull up some turnips, tops and all, and when you land, I will have my little wife to put your name in the dinner-pot. Also bring along your cob pipe and I will furnish the Hillside Navy, and we will sit down and talk about the interest of our state and discuss old times. I never swear, or use profane language in any form, and I do not like to be in company with a man who is addicted to profanity; but should you honor me with the office of Governor, I will promise you now that you will have one of the damdest best Governors that the State of Arkansas has ever had. Try me one time, fasten my hame-strings, and hook my tugs, give me forty minutes' sleep at the crossroads, a cake of corn bread, and a pint of pot licker and let me go."

Society Section

This year's Easter was a success. Beautiful sunshine featured the day from morn till night, and was only excelled by the splendor of the millinery display. In many instances last year's hats were so cleverly disguised as to pass for new and the new ones were models of grace, beauty and originality. Minor events of the day such as the beautiful singing and the splendid orations of the clergy occurred as scheduled according to persons who paid attention to them.

"SPEAR HEAD" AN OLD TIME FAVORITE

The Most Popular Chew for a Third of a Century

PURE, RICH, FRUITY-SWEET

The man who chews gets by far the most wholesome enjoyment and satisfaction out of tobacco, especially if he chews plug tobacco. The rich juices of the leaf are retained in good plugs better than in any other form. For more than a generation Spear Head has held first place as the favorite high-grade plug chewing tobacco. This unique distinction is due solely to the wonderful quality and flavor of Spear Head—the richest, mellowest, tastiest chew in the whole world. Spear Head is the choicest of all red Burley, hand-stemmed and made into mellow-sweet plugs in a perfectly clean, most sanitary factory.

You can't chew the flavor out of Spear Head, because it's a part of the tobacco. That rich, ripe, red Burley taste keeps on pleasing you as long as you keep on chewing.

Chew Spear Head and you'll be chewing the purest and most satisfying tobacco that it's possible to make. In 10c cuts, wrapped in wax paper,
