NEW PERFECTION OIL COOK-STOVE

No coal, wood or ashes to lug—no waiting for the fire to burn up. Better cooking because of the steady, evenly-distributed heat, under perfect control. All heat concentrated on the cooking and not radiated around the room. The long, blue chimneys prevent all smoke and smell. Bakes, boils, roasts, toasts. More efficient than your wood or coal stove and costs less to operate.

COUNTRY CORRESPONDENCE

BUENA VISTA

The Ladies Rural Club held its regular meeting at the home of Mrs. Buell. A delicious luncheon was served by the hostess.

Mrs. Jack Hall was at Salem the past week.

The older boys' class of the M. E. Sunday school was given a party in the I. O. O. F. hall Friday night by Mr. Wells and all present had a delightful time and to conclude the evening a luncheon was served. Those present were Arthur Black, Genva Cryderman, Ellis Cobins, Ernest Chown, Ruby Elkins, Ray Grounds, Alfred Loy, Gilbert Loy, Harold Reynolds, Edna, Ellis and Verd Shrunck, Clara Schneider, and Bernice, Perry, Marvin and Clifford Wells.

Sunday was a day of rejoicing for Mr. Bevins. On Saturday afternoon he had paid an election bet made with E. L. Chown by riding to and from Independence on a trailer, and as the road proved rather bumpy, he was glad it was over.

After two games between the Alumni and High School, the third game was played on Saturday night, the score being 8 to 12 in favor of the high school. Both teams did good work.

Mr. and Mrs. Buell and family

were guests at the home of Mr. and Mrs. J. Loy on Sunday evening.

Mr. and Mrs. Nelson Anderson spent Sunday with their niece, Miss Genva Cryderman.

Mr. and Mrs. Martin Prather and Mrs. Anderson were Salem visitors this week.

Church Services: Methodist, Sunday school at 10 a. m., church at 8 p. m.; Evangelical, Sunday school at 10 a. m., church at 11 a. m.

SUVER

F. N. Stump has opened his new hardware store.

Edward L. Bagley has returned to Suver to spend the winter with his parents.

Misses Matilda and Ann Ridders entertained last Tuesday evening.

Raymond Frost has returned to Forest Grove, where he will resume his studies at Pacific University.

Miss Violet Oglesbee has returned from Eugene and will spend the winter with her parents, Mr. and Mrs. T. P. Oglesbee.

Mr. and Mrs. O. M. Allen entertained with cards and dancing Saturday evening. The James-Cooly orchestra furnished the music.

POLK COUNTY CORN

Clarence Sellers raised as fine a patch of field corn this season as was ever raised in these hills. It was raised on a southeast slope, in a year-old prune orchard. There were two acres of the corn and it yielded considerably over 100 bushels. Mr. Sellers sold some of it in the field so is unable to say just how much there was. He has 100 bushels stored away. It is of the Yellow Dent and King Phillip varieties. He says it is hard to tell which variety yielded the best. The ears were almost all large and well filled.—Oakdale Correspondence in Dallas Observer.

NEBRASKA TURNIPS

J. F. Smith of Mistletoe was in the Herald office this week with two Aberdeen turnips one of which weighed 9 pounds. It was as large as a pumpkin but at that fell short of the kind that were grown in Nebraska when the soil of that state was new. We are told that a single turnip

there, was enough to supply a single sheep with food, water and shelter for the winter. As the sheep ate its way into the turnip it secured the shelter and the body of the vegetable served for food and drink.—Monmouth Herald.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being generally influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts like the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

AN AID TO CUPID

Pennsylvania Governor Plans For Courtling Parlors.

FOR THE RURAL DISTRICTS.

Brumbaugh Declares That 95 Per Cent of Growing Girls of State Cannot Cook an Egg or Bake a Batch of Bread—Advise Girls to Marry Farmers.

Harrisburg, Pa.—Ninety-five per cent of the growing girls in this state cannot cook an egg or bake a batch of bread, and Governor Brumbaugh is going to make the Pennsylvania schools of the future take them back to the bread pan and skillet. Eighty per cent of the lads and lassies in rural sections get no chance to become acquainted and marry, and Governor Brumbaugh stands sponsor for a "do your courting early" proposition that would put "sparkling parlors" in every farmhouse.

The governor has made his second motoring tour among the agricultural

GOVERNOR BRUMBAUGH

communities. "If I were a young girl," said the governor, "I would marry a farmer and stay on the farm. If I were a farmer boy I wouldn't do any of my courting in town, but I would pick out a farmhouse to do my sparkling in. That is the great trouble with these rural communities.

"You hear a lot about 'back to the farm.' My slogan is 'Stick to the farm.' Town life is nothing much more than the lure of five cent movies, and you have better things right here. We want to devote our time and attention now to the problem of making our girls, the mothers of tomorrow, fit to be wives. Ninety-five per cent of the girls going to our schools don't know how to cook an egg and can't tell the difference between cooked dough and raw dough. They don't know how to make a batch of bread, and while they may be strong on multiplication, they are weak on the addition of bread ingredients.

"It is for this reason that vocational schools are springing up everywhere. People realize that education is to fit a girl for her duties, and as at least half of our girls marry the problem of making them ready for wifehood is the best problem that faces us today. I realize, too, that education has failed to provide for this, and the education of the future must deal with this problem as its highest, most imperative duty."

GIRL OWNS ELECTRIC PLANT.

After Another Year's Study Miss Wohlford Will Run It.

Los Angeles, Cal.—Miss Mary Wohlford, a twenty-two-year-old Stanford university student and daughter of an Escondido banker, has announced that after she finishes another year's study in electrical engineering at the university she will take charge of the gas and electric corporation which she bought for \$10,000 at a public auction a few days ago. She is owner and head of the utilities corporation which supplies gas and electricity to Escondido.

Miss Wohlford is determined to learn all she can about her plant and what it produces.

SON SEVENTY YEARS OLD.

Both His Aged Parents Still Alive and Visit Him.

Denver—Mr. and Mrs. James S. Jones of Rushmore county, Mo., who have been married seventy-one years, are visiting their seventy-year-old son, Glabe Jones, in this city.

Mr. Jones is about one year old and his wife four years younger. They were married July 22, 1845, and have had fourteen children: seven boys and seven girls. Four are living, all over sixty years old. There are fifty-eight grandchildren and eight or ten great-grandchildren.
