Miss Emma Henkle returned home Saturday from Corvallis where she taught the past year. She was accompanied by Miss Eleanor Cranter of Union and Miss Winnifred Garlo, of Oberlin, Ohio. Miss Cranter went home Monday.

HERO MINDS LEG AND ARM SAVES GIRL, WINS A BRIDE

Maimed Expert Swimmer Snatches Miss King From the Surf.

New York.—The loss of his left arm and left leg did not prevent Ludger Gagne, Jr., of 20 Westland avenue, Boston, from being an expert swimmer or from saving Miss Louise King of 25 Salem street, Winchester, Mass., from drowning at Revere Beach last summer and eventually winning her for his bride.

When twelve years old, just half his present age, Gagne's swimming and diving records were considered marvelous. Then he fell beneath the wheels of a train and lost a leg and an arm. After his wounds had healed and, although Boston harbor was full of whitecaps and storm signals were set he swam without trouble to Boston light, six miles out.

Gagne was talking to a life guard at Revere Beach last summer when cries for help came from the water. A girl was struggling a considerable distance from shore. Gagne reached the girl first. She was Miss King.

Gagne and Miss King became engaged. Her parents favored the match, but advised the young couple to wait until Louise was twenty-one. They vetoed the suggestion, however, and were married by Deputy City Clerk Cruise in the municipal building chapel, this city.

The Monitor always leads.

Notice

With a suit, or coat and pants order, we will give you absolutely FREE an extra pair of trousers or a fancy vest, provided you will leave the selection of this vest pattern to Beau Brummel.

Order today as this offer expires July 1st.

MARINES GO FIRST

Seasoned Veterans to Be Under Colonel Doyen's Command.

MAINLY FROM WEST INDIES.

Colonel Doyen, Fifty-eight Years Old, is Graduate of Naval Academy—He Has Seen Service in the Philippines and Orient and in Haiti and Santo Domingo.

Washington.—A regiment of veteran United States marines, equipped as regular infantry, will go to France as part of Major John J. Pershing's command. There will be approximately 2,900 men in the regiment, probably the largest numerically that will be engaged on the western front.

Colonel Charles A. Doyen, at present commandant of the United States marine barracks in this city, who has been in the service thirty-four years, will command this new American contingent.

For the most part the marines will be taken from regiments now on duty in Haiti, Santo Domingo and Cuba.

Photo by American Press Association. COLONEL CHARLES A. DOYEN.

This means that Secretary Daniels will send the pick of "sea soldiers" with General Pershing's command. Every marine in the contingent will be a veteran who has been frequently in action. The American marines have been characterized as the peer of any fighting force on earth.

Colonel Doyen is a graduate of the Naval academy. He is fifty-eight years old, but remarkably active for a man of his years. He has seen service in the Philippines, and the orient, in Haiti and Santo Domingo and in other places wherever marines have been in action.

Secretary Daniels would give no inkling as to when the big regiment will go across the Atlantic. This information will be in absolute secrecy, just as the departure of General Pershing and his staff and the force which is to follow them will be closely guarded by the military authorities.

SCHEME TO BEAT U BOAT.

Connecticut Man Would Coax Torpedoes With Magnet.

Waterbury, Conn.—Fred Hennings has invented a device to offset the danger of the torpedo in its attack from the submarine or otherwise. The device is an electric arrangement of great magnetic power, attached to the side of the ship, which will attract the torpedo, bring it to the side of the ship attached and then lift it to the deck without exploding it.

Mr. Hennings believes it is destined to revolutionize sea fighting and will make vessels practically immune from

TORPEDO RELEASES. LAWRENCE ADDICKS, chairman of the naval board, is now considering its adoption for service. Theodore Roosevelt has congratulated Mr. Hennings in a private letter.

PLOWING DAY AND NIGHT.

Tractors and Searchlights Used to Help Cayuga County Farmers.

Auburn, N. Y.—The Cayuga County Home Defense league committee began intensive food production on the farms of the county by putting out tractors which will plow continuously day and night.

Searchlights have been installed, and three crews will go with each machine, working in eight hour shifts. The committee charges farmers \$2.50 per acre to plow and \$3.50 an acre to plow and fit the land, which covers cost of operation and maintenance.

Sell the Champion Cream Saver

THE NEW DE LAVAL

Did you know that while other manufacturers are raising their prices to meet the soaring cost of materials, The De Laval Separator Company is putting out at no increase in price a bigger and better cream separator than ever before—a separator with a self-centering bowl, a bell speed-indicator that insures operation at the proper speed, and many other important improvements?

The NEW De Laval embodies the greatest improvements in cream separator construction in the last 30 years.

The NEW De Laval has greater capacity. The NEW De Laval skims even closer. The NEW De Laval is even simpler in construction.

The NEW De Laval is even more sanitary. And you get all these improvements without one cent increase in the price.

The first time you come to town drop in and see one of these new machines. We know you will be interested in the new self-centering bowl, the new milk-distributing device, the improved discs, the bell speed-indicator, and the improved automatic oiling system—all features that are found only in the NEW De Laval.

You can buy a De Laval from us on such terms that it will pay for itself while you are using it. But even if you are not ready to buy yet, come in and look the machine over. It will be worth your while.
