

War Can't Stop Us

It makes no difference in our appetites for good eats. But the question of the hour is, "where to get good, satisfying eats at medium prices."

WE HAVE THE ANSWER

It is plainly in evidence in every part of our store. It consists of **Fresh, Pure, Clean Groceries** And the smiles of many satisfied customers is the best of proof that we make good on every claim.

Calbreath & Jones

COUNTRY CORRESPONDENCE

BUENA VISTA

Mrs. Frank Fisher of Portland is here visiting her parents, Mr. and Mrs. E. F. Black.

Miss Helen Leonard returned home on Thursday from McMinnville where she visited her grandmother, Mrs. Crowley.

Miss Gladys Reynolds returned home last week from Iowa where she visited with relatives during her vacation.

Mrs. Leonard enjoyed a visit from her brother, Ray Crowley, who is in the 3rd Oregon Infantry at Clackamas.

Miss Louise Leonard is spending the week with her grandmother, Mrs. Crowley, at McMinnville.

Mrs. Mammie Chown and daughter, Viola, returned to McMinnville on Saturday after visiting here two weeks.

The Ladies Rural Club will meet with Mrs. N. C. Anderson on Oct. 4. This will be a business meeting, so don't forget the date.

Cecil and Teddy Steel and their step-father, Mr. Allen, of Newport are visiting relatives in this vicinity.

Mr. and Mrs. E. M. Lichty and Mrs. F. L. Chown and son,

EAST SIDE TO BE GIVEN PREFERENCE

The state highway commission is not very popular now in Yamhill and Polk counties for the reason that the commission has said that it will be inclined to show a preference henceforth for the road on the east side of the Willamette. In the view of the commission the decision of the Polk and Yamhill county courts that they wanted the west side located between McMinnville and Dallas by the way of Ballston with a stub line from McMinnville to Amity makes it a local road instead of a through route. As a local road the commission says it will be treated in the way of improvement.—Portland Journal.

INSTANT ACTION SURPRISES MANY HERE

This grocer's story surprises local people: "I had had stomach trouble. All food seemed to sour and form gas. Was always constipated. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL astonished me with its INSTANT action." Because Adler-i-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. WILLIAMS DRUG CO.

Ernest, visited friends at Sheridan on Sunday.

There will be services here next Sunday at the M. E. church as follows: Sunday school at 10 a. m., preaching at 11 a. m. and 8 p. m. This will be the last services before Conference so don't forget to be present.

Grandma McClain went to Portland on Saturday afternoon to visit her children there. She will be gone several weeks.

Mr. and Mrs. W. D. Simmons went to Salem on Sunday. Glen and Leona Wells returned with them.

Mr. and Mrs. J. K. Neal returned here on Saturday to spend several days visiting around.

AIRLIE

Miss Irene Ritner of Pelee was operated upon for appendicitis in Dallas last week.

School commenced Monday. Principal Ridgway is occupying one of Mrs. W. P. Rose's houses.

C. V. Johnson is shipping blackberries to Newberg. He is receiving a fair price for them.

W. E. Williams has bought the old school house building.

S. H. Petre will finish hop picking this week. He has a larger crop than last year.

"TRAITOR" HYSTERIA

The treason and traitor hysteria that at present possesses the country is getting beyond bounds and reminds one much of conditions in the bay colonies at about the time of the Salem witchcraft. Everybody appears to be suspected and a condition may result that will be a cause of marvel and wonderment a few years hence.—Monmouth Herald.

THE KAISER'S ANSWER TO "HOCH DER KAISER"

Vere iss der man vat write diss puff, w ho dare to brint up all diss shuff, 'Bout me—und Gott? I show him mitout use of kimmel, Or ofen help of Gott in Himmel, Dat for diss grime he shall adone Und I gan run diss vorlt alone, Mitout dot G-tt—by Gott.

Catarrhal Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Cure acts thru the blood on the mucous surface of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars Free. All Druggists, etc. F. J. CHENEY & CO., Toledo, O.

Dr. R. E. Duganne, dentist, National Bank Building.

EVERYBODY PATRIOTIC BUT THE SENATE

Bands blared patriotic music that stirred the fires of patriotism in the breasts of old and young. The president led the parade and behind him were Cannon and Clark and senators and congressmen, veterans of the civil war, veterans of the Spanish war and government officials of almost every degree. Mothers, fathers, wives, sisters, sweethearts lined the street, some in tears, some with brave smiles. Thousands of clean, brave, strong lads were off for camp, to prepare to do or die in war. Over all floated the blood-sanctified colors of Old Glory! Oh! it was a glorious sight in Pennsylvania avenue that bright morning of September 4th, as our boys conscripted for war marched away towards heroes graves! Glorious! Glorious!

And over at the head of Pennsylvania avenue a body of senatorial representatives of democracy was voting, 4 to 1, against conscripting money for war!—Portland News.

PROFITEERS DENOUNCED BY PRESIDENT OF THE NON-PARTISAN LEAGUE

(By A. C. Townley, President of the Non-Partisan League.)

Farmers and wage earners are willing, ready and anxious to support any law that makes for the success of this war for liberty and democracy. We want that law applied to all alike and we propose to do all in our power to aid the government in its purpose to make it apply to all alike.

The surest way to win the war for liberty and democracy and defeat European autocracy is to marshal all the resources of this nation in support of the war, and all profits until after the war is over.

If by helping the government finish its price fixing program you can see to it that a price is fixed on steel and coal and guns, and all other necessities and munitions of war, a price that will make the business of these gentlemen as unprofitable as the business of farming now is in the Northwest, I want to assure you that what patriotism these profiteers have left will be of a much better quality.

SANITARY FARMING

We've bathed the bossie's tootsies, we've cleaned the rooster's ears, we've trimmed the turkey's wattles with the antiseptic shears. With talem all the guinea-hens are beautiful and bright, And Dobbin's wreath of gleaming teeth we've burnished snowy white. With pungent sachet powder we've glorified the dog, And when we have the leisure we'll manicate the hog. We've done all in our power to have a barn de luxe; We've souzed the sheep in kreso dip; we've sterilized the ducks. The little chicks are daily fed on sanitized worms, The calves and colts are always boiled to keep them free from germs. And thoroughly to carry out our prophylactic plan, Next week with germicidal soap we'll wash the hired man.—Cribbed.

BIRD BURNS FARMER'S BARN

Flies With Blazing Twig Into the Hay-loft. Middle River, Md.—Fire destroyed the barn of William Huff, a farmer living nine miles south of here. Mr. Huff declared that the fire was caused by a bird which carried a twig, one end of which was aglow, into the hayloft. Not far from the barn a brush fire was burning. The nesting bird carried a twig which had been burning in the brush fire, but which was thought to have blown away from the immediate vicinity of the fire, to the barn. Mr. Huff, who was working in the barnyard, said he thought he saw a slight trail of smoke as the bird flew past him, but did not investigate. In a few moments the barn was afire. Two valuable horses were burned and the building destroyed.

Widowed Three Times in Eight Years. Laurel, Del.—Mrs. William H. Beach, forty-four, has been made a widow three times in eight years. Her first husband was drowned. The second, H. Collins Marvill, died in Cambridge (Md.) hospital eighteen months ago, and the last died in Mardela, Md., a few days ago.

BLEEDING BELGIUM

(Published by request)

Since the food administration became a fact, under the law, we have been saying little about Mr. Hoover, because our chief believes that an institution is always stronger than a personality.

But I wish every technical editor in the United States could have heard Herbert Hoover draw a brief fact picture of Belgium the other night. It would help the technical man to realize what we are fighting against and how necessary it is to keep food saving, one of the four big issues of the war, constantly before every reader of every publication in the land. Mr. Hoover said that Belgium is about as large as Maryland; that it contained at the outbreak of the war 10,000,000 people; that these people had to import 80 per cent of their food; that in four weeks Belgium was hemmed in by a wall of bayonets on one side and a line of battle-ships on the other; that its food supplies were taken away into Germany; its railroad facilities seized; its newspapers, telegraphs, telephones and every other means of communication taken away; its intellectual and social life stopped, and every person who remained alive confined to his or her own commune. Finally many of its men were taken into Germany and set at compulsory labor—the first instance of slavery for white people known in the world for more than 400 years.

Mr. Hoover said that we had no such actual example of war in our own country to touch the inner spiritual sympathies of the American people and make them realize every day at every meal the necessity for reasonable economy in food. Therefore, we have the task of making people feel this necessity by reaching each individual in the country as often as possible with some vivid reminder. No country in the world has ever undertaken such a task before.

Does this make the need for food saving clearer to you?

Does it suggest direct ways in which you can help?—James H. Collins, in Oregon Merchants' Magazine.

WAR ON VANDAL DOGS GAINS BY CONVENTION FOR SHEPHERDS

Sheep-Killing Curs Get Blacklisted by State Councils of Defense for Protection of Meat and Wool Supplies of Sheep in Wisconsin and Michigan.

SHEARING PRECIOUS FLEECES

Chicago (Special)—Better protection for sheep the country over will be one result, it is foreseen, of the Great Lakes Wool Convention at which flockmasters and shepherds of the western states will be guests of honor. The National Sheep and Wool Bureau in its campaigning for "more sheep, more wool," has taken up active war on sheep killing curs.

In advance of the convention, Governor Philipp of Wisconsin, was appealed to by the Bureau and personally took the matter up with the Wisconsin Council of Defense. Prompt action was taken. A bulletin to every County Council of Defense was sent out as follows:

"Very little damage is done by animals other than dogs. In a majority of cases the guilty dogs are worthless curs permitted to run about and range over the country, and for all intents and purposes, so far as their value is concerned, had better be dead than alive.

"Meat of all kinds is scarce and high. The State Council of Defense recommends that the County Councils at once take up this matter in the several counties of the state, asking the farmer to keep careful watch

on the depredations of dogs, every where so that the loss of wool may not be as great this year as it has been heretofore.

"There is also a tremendous shortage of wool in the United States. Authorities tell us we need 750,000,000 pounds annually as against 230,000,000 pounds actually produced. Cut off as we are now from other wool producing countries, the wool situation is serious in the United States and there is urgent need for County Councils and farmers in the state to take the utmost precautions with reference to conserving the wool supply.

"The law regarding the preservation of sheep from the depredations of dogs is sufficiently strong and makes the penalty for losses rest upon the owner of the dog doing the damage.

"The State Council recommends that County Councils bring this matter to the attention of the district attorney and sheriff of their counties for immediate attention."

Go to Conkey & Walker's for your good heavy cotton and wool blankets.
