WHAT'S THE MATTER WITH OREGON?

R. N. STANFIELD

REPUBLICAN

For United States Senator

"I have a very strong conviction that Oregon has been discriminated against by the National Government in many ways. Mr. Stanfield shares this feeling and promises, if elected, to correct it as far as it lies in his power to do so. Senator McNary denies that any such discrimination exists. He was quoted in a dispatch from Washington to the Oregon Journal as saying that he took no stock in the statement that there had been discrimination against Oregon. Of course, if he believes that there has been no such discrimination he will make no effort to remove it."—S. B. Huston who withdrew from the Senatorial contest and is supporting Stanfield.

Why do the Telegram and Journal complain that Seattle is always taking payrolls away from Portland, then attack Stanfield because he has built up an industry which benefits Oregon and Portland, creates a payroll and adds thousands of dollars to the tax list? Why has Portland lost so much to Seattle—is it because there are elements in Portland, always ready to knock any one who tries to help the community.

Five lawyers comprise the Oregon delegation at Washington, there has not been a business man, farmer, or toiler in the delegation in a generation.

Why has the Chamber of Commerce felt it necessary to hire a special representative at a senator's salary of 7500 a year to look after Oregon's interests?

Stanfield will not be dictated to and controlled by a political boss, by corporations or by newspapers, but he will serve the people of his state, playing no favorites and giving a square deal.

No one has ever said that Bob Stanfield is a double-crosser, or that he is selfish or not liberal with his resources or his friendship. There isn't a lazy bone in his body. He has been a toiler all his life and never held a cushy job.

Raised on the range, he is no silk-stocking. Stanfield has built up from nothing through constructive labor until today he is one of the genuine assets of Oregon. He did not marry his money, nor did he inherit it—he worked for it.

Republicans know that Stanfield is 100 per cent Republican. He is not a 50—50 Demo-Rep.

Issues Letter to Voters

It will be impossible for me to visit all the voters of the Republican party before the primaries and I am using this plan to place before you the facts which you as voters should know as to my qualification for the position I am asking of the voters of Polk county.

One matter, only really is vital and that is am I qualified? I am a graduate of LaCreole academy, had special training in the Portland Business College, attended law college for one year and was admitted to practice law in Oregon, thus qualifying myself to apply legal knowledge to business matters, and the "clerk's office" requires both business knowledge and a fair understanding of law. I therefore feel that I am qualified.

Personalities do not usually enter into politics, except as to honesty, integrity and ability, and I have lived in Polk county for many years and the voters know me and I need not go into detail in these matters.

I will state, however, that I was born in Polk county, educated in Polk county and lived in Polk county all my life, over 40 years, except when in service in the Philippine Islands in 1898 and 1899.

I first entered business in Dallas in 1904, have never held or asked for political position, except being a councilman in Dallas in 1907 and feel that I am not asking a favor as one who has made "politics" a business, but rather as one who is asking support entirely on my business qualifications, legal training and personal acquaintance.

In considering the different candidates I ask no favors except that to which I am entitled by reason of the facts I have stated above.

Respectfully Yours, JOHN C. UGLOW.
