Lilies tobacco extract, a proven spray for roses, at Sloper Bros. & Cockle.

If you wish the boys and girls paper, pay up for the Monitor and get the two for the price of one.

WHEAT FOR LIBERTY

Edna M. Mills, Home Demonstration agent Extension Service. The only question for every true American today is: "What can I do to help win the war?" The only answer: "Give instantly the service needed."

That service now is until the next harvest for you to share your wheat with your comrades across the sea—for you who can afford it to give your whole share to them.

Wheat is now a luxury for invalids, babies and the very poor. It is not now fit food for strong men and women. Let us use such breads as the following and conserve ALL the wheat:

Carry-Ons

One-half cup rice flour; 1 cup corn flour; 1 1/2 cups oat flour; 5 teaspoons baking powder (level) 1 1/2 teaspoons salt; 1 egg; well beaten; 2 tablespoons Karo; 1 1/2 cups milk.

Mix dry ingredients, add milk, syrup and beaten egg. Let stand a few minutes before baking in a moderate oven. Should be about the consistency of cake dough.

Rice-Oat Defenders

One cup milk; 1 tablespoon fat; 2 tablespoons Karo; 2 eggs; 4 teaspoons baking powder (level) 1 teaspoon salt; 1-3 cup rice flour; 1 1/4 cups oat flour.

Mix dry materials, add milk, melted fat and well beaten eggs. Mix well, pour into oiled pan, let stand 15 minutes then bake in moderate oven. When using the substitutes remember to us, a trifle more baking powder, bake more slowly and longer.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

WHAT SCOUTING REALLY IS

Scouting is the process of making real men out of real boys, by a real program which works.

Scouting is a happy, wholesome, worthwhile, outdoor school.

Scouting is a huge, splendidly organized game, a progressive game. It gets somewhere.

Scouting is more than a game. It teaches signaling and first aid and fire fighting and outdoor cooking and a host of other useful and important things. It teaches also self-reliance and helpfulness, courage and courtesy, loyalty and reverence, patriotism and honor.

Scouting is nonsectarian, though its ideals are in accord with those of the modern church and it is based upon a pledged allegiance to the service of God, the brotherhood of man.

Scouting is not organized for war service, not yet exclusively for peace service. It is organized for service, any service, any service, high or humble, big or little—just service.

Scouting inculcates a patriotism which holds itself ready to serve country in whatever form the need and the call may come. Preparedness is the scout platform.

Scouting is democratic. It aims not to run every boy into one groove, but to help each to develop into the fullest measure of which he is capable.

Scouting also knows no bounds of class, or creed or race. It speaks the universal language of world brotherhood. The end and aim of scouting is good citizenship, to make men "physically strong, mentally awake, morally straight."

SCOUTS LARGEST WORLD BODY.

Do people generally know that the Boy Scouts of America is the greatest single volunteer organization in the world? It was the largest organization taking part in the two campaigns for the Liberty Loan. There are millions of scouts all over the world, in every country.

Since America went to war the things that have happened to the Boy Scouts of America and the part that boy scouts all over the globe have been called upon to play in pressing forward the activities that will win this war have made an epoch in the life of this land and of the world.

War conditions demand an increase in numbers and efficiency. There should be 2,000,000 Boy Scouts of America in the country. There would be that number if men who may not yet to the front would undertake at home this work of practical patriotism. The boys who are not yet scouts are just as anxious to serve the nation as the boy scouts who are.

The president of the United States has given scouting a definite place in the national affairs.

MAKING FIELD MAPS.

All First-Class Scouts Must Be Able to Make and Read a Chart.

SERBIA REGENT FORMS SCOUTS.

What to do with the orphans of the slain soldiers was one of the biggest problems Serbia faced after being practically vanquished. After the bombardment of Monastir there were thousands of the boys practically orphans.

Prince Alexander, regent of Serbia, took the little fellows in charge and formed them into companies of boy scouts.

He won the love of the little fellows, and nothing pleased them more than to form for review before the prince. And he is as keenly interested as they, always commending the youngsters on their progress, and at each review giving them some new pointer to advance them in scout lore.

BOY SCOUT GOOD TURNS.

The Richmond commission on training camp activities has made public the result of the count taken to ascertain how many soldiers from Camp Lee came to Richmond to spend Sunday night and Sunday. Through an arrangement with the boy scouts, all entrances to the city were posted and a close check was kept on all visitors. It showed that 2,225 soldiers came in, and there will be an increase in the town's transportation facilities.

Granite contains nearly all food necessary for many plants. Therefore, freshly ground granite is a good fertilizer.

Grocers Patriotic.

Milton, Mass.—Grocers of this town discovered they had an overstock of white flour. They made an inventory and found there were 200 barrels more than their normal needs for the month. They at once notified the state food administration and the flour was diverted to other communities.

MAKES PARIS LAUGH

German Papers Give Lurid Tales of Bombardment.

City Is Serene and No One Pays Any Attention to Long-Range Gun.

Paris, France.—The damage caused in the Paris district by shells from the long range German cannon has been insignificant in proportion to the mirth provoked by German newspaper reports giving lurid accounts of the damage, panic and consternation in the French capital since the bombardment began.

One German paper says great numbers of dead are buried at night; that the people of Paris take their breakfast and luncheon in their cellars and that all those who can leave the stricken city are hastening to a safe distance. Another says that in the high tension of nerves resulting from the havoc the common people, "who are unable to leave the city" are bringing about trouble that amounts to riots after each unfavorable communique from the fighting front.

The situation in Paris has been described by cable. No disorder of any kind has occurred and instead of consternation there reigns and has reigned from the beginning perfect tranquility. No one pays further attention to the long range guns than to speculate after each explosion as to where the shell fell. Most of the shells fall in the soft earth of the country districts.

The few shells that have reached settled portions of "the entrenched camp of Paris" have done astonishingly little harm. Even the shell that went into a church on Good Friday killed no one, the casualties resulting from the caving in of the arches. Had the shell not happened to strike a pillar supporting the ceiling few if any of the congregation would have been hurt. Shells have fallen within ten to thirty feet of buildings without doing more damage than breaking windows.

'WHO'S LOONEY NOW?'

Mystery at Psychiatric Unit at Great Lakes.

Blocks and Puzzles Appear and Disappear by Magic When Rookie Is Examined.

Great Lakes, Ill.—"Who's looney now?"

This is the big question over at the psychiatric unit at the naval training station.

A few days ago Ensign John Sharpe recovered an ex-splendid hand performer among the recruits in detention. Mr. Sharpe seized the opportunity for some fun. He called the psychiatric unit, asked for Chief Yeoman Dodds and said:

"I have a loon I am going to send over. He is as crazy as a bat, so watch out for him."

Then turning to the sleight-of-hand man he remarked: "Go over and show them a good time."

When the "loon" appeared at the unit, Dodds showed him to a seat, brought out the various blocks and puzzles and started to find out whether his patient was born crazy or attained it later.

"Take these blocks"—Dodds began. But the blocks had disappeared. Business of searching high and low, but no blocks.

Dodds registered consternation, excitement, perplexity—but still no blocks.

"I think you will find them in your right coat pocket," said the man being examined. And sure enough, there they were.

Dodds tried again:

"Now here is a picture, look at it ten seconds and tell me about it."

"Where is the picture? This is only a piece of paper," said the mystery man.

Dodds replied, "I gave you a picture."

"Here is what you gave me, sir."

The picture was gone. Dodds was certain he handed it to the sleight-of-hand man.

"Did you look in the chair, sir?" asked the "loon."

Dodds found he was sitting on the very picture he had just handed the actor.

Several things disappeared in like manner until it was suggested that some one certainly did need an examination—but not necessarily the sleight-of-hand man.

When he left Dodds was counting blocks.

PERMANENT DIRECTORY

U. S. GOVERNMENT

President, Woodrow Wilson, of New Jersey.
Vice President, Thos. R. Marshall, of Indiana.

Secretary of State, Robert Lansing of New York.
