The Story of the Organization of a Pioneer Party of Oregon

The third article of the constitution was rescinded. The second article of the constitution was changed so as to require the heads of families only to pay the one dollar initiation fee.

It was resolved that the treasurer be required to keep an account of all the money received and expended, and that his report be examined by the executive council and reported on to the company.

The eighteenth was so changed as to read a good and sufficient gun instead of rifle.

The captain and lieutenant were requested to negotiate with Mr. Clark to procure his services as pilot to the Independence Trace.

The treasurer was authorized to refund to the young men the dollar fee which had been paid previous to the alteration of the second article of the constitution.

Executive council met. The report of the committee of inspection was received. The council determined that the inspection so far be sustained, that is, as it regards the wagons and provisions, all except the teams.

The following report was ordered put on record. (Report will appear in next issue)

At a meeting of the emigrants intending to go to Oregon held at Wolf River on the 5th day of May, 1845, William Helm was called to the chair and Lewis Thompson, secretary. A committee of seven men elected to draw resolutions, etc., for the adoption of the company, viz: David Carson, Solomon Tetherow, James Officer, William Wilson, Nicholas Ormbly, William Dawson, Robert Miller, committee.

Art. 1. This society shall be known as the Oregon Emigrating Company.

Art. 2. The majority in all cases shall rule.

Art. 3. The officers of this company shall consist of a captain, an executive council of 12 men. The captain shall be chairman. All other sub officers shall be determined by the executive council and the executive council shall have the general superintendence of the company.

Art. 4. Any man going to sleep on duty or deserting his post without leave, the executive council shall determine the fine or punishment.

Art. 5. The treasurer shall collect and safely keep and disburse the money in the treasury at the discretion of the executive council.

Art. 6. The executive council shall levy an ad valorem tax on property for the purpose of defraying expenses—all private property exempted.

Wm. Dawson, Chairman. Art. 7. Whenever repeated complaints shall be made to the executive council of the inefficiency of any of the officers of the company, it shall be their duty to cause him to resign.

Oregon Encampment, Wolf River, April 5 (May) 1845, 1 o'clock.

Company met. The committee reported on the constitution on the previous page which was adopted. Solomon Tetherow was elected captain. Hardin Martin, first lieutenant; William Thompson, second lieutenant; William Helm, treasurer; Lewis Thompson, secretary and Joseph Cunningham, inspector.

The following is a list of those who were elected to constitute

the executive council: William Helm, David Carson, John Loyd, James Officer, John Ridgeway, Nicholas Ormbly, H. M. Knighton, William Dawson, Lewis Thompson, Robert Miller, Zachariah Moreland, Andrew Foster

YOUR FLOUR WILL BE TAKEN AT STORE

Flour Will Be Accepted at All Groceries as Shown Below

The following letter has been received by every grocer in Polk county:

"My attention has been called to the fact that some of our women have been discouraged from the returning of flour in small amounts.

Please do not discourage the splendid spirit of our patriotic women. Accept flour in amounts of one pint or over, if upon inspection it is not damaged or has weevil. Small quantities must be put together in sacks before shipping. I have been instructed to ask you to hold this flour until definite shipping instructions are given.

I look for these instructions soon as the Food Administration hope to be able to load three 8,800 ton ships now building in Portland that will be ready for their maiden voyage through the Panama canal about June 15, with the wheat being sent in by the growers and the flour returned by the housewives and grocers.

I just received a letter from the Portland office saying Polk county was the second county in the state to adopt the wheatless basis but all other counties except Marion and Clackamas have since adopted it. Both Clackamas and Marion have adopted a 25-75 basis until the 15th when the matter is to be brought up again.

I feel confident that by June 15 they will feel the pressure of public opinion and will join with the other counties.

I am proud of the way our people are responding and the number of women desiring to turn back to the last pound is most typical of the true American spirit.

Just as soon as definite instructions concerning the return of the flour are received I shall notify you.

Thanking you for your splendid co-operation, I am, Sincerely, Winnie Braden, County Administrator.

HOW TO SAVE MONEY IN USING THE OLD

SAVE EACH PIECE, SLOGAN FOR WAR TIME MILLINERY

Work is Made Joyous With Bore of Odds and Ends of Materials For Repair

Corvallis, Ore., June 7. War time millinery, unlike most wartime subjects is joyous work if you only have a box of odds and ends of material in the store room, say the girls who have just completed that course at the O. A. C. They say that the proper slogan for the thrifty housewife who does her own remodeling is "Save Every Piece." Here are some of their renovation rules:

Leghorn Hats or Panamas

Brush off dust and if very dirty wash with soap and water. Make a paste of sulphur and water and brush thickly over the hat; when dry brush off. For a Leghorn hat, if a gloss is wanted, brush with white of egg or copal varnish; when thoroughly dry iron into shape.

To Renovate Silk Ribbons

To take creases out of silk ribbon without leaving a shine caused by the iron, lay out on an ironing cloth; place a sheet of heavy paper on top. Press an iron firmly at one end and gradually draw the ribbon through. Keep the iron stationary and repeat until all creases are removed.

To Renovate Black Corded and Satin Ribbons

Lay on a board and sponge down with ammonia and water, cold tea or alcohol and water. Lay out on an ironing cloth while damp; lay a piece of heavy paper on top. Press an iron firmly at one end and draw ribbon through. Repeat this until ribbon is dry.

To Renovate Velvet Ribbons

Sponge the satin side with ammonia and water; while damp iron with tissue paper under the iron. Fix one end of the ribbon to the edge of the table and hold the other in the left hand and iron on satin side. The pile will not be crushed at all.

To Renovate Crepe

Wind the pieces around a roller; pin loosely and allow the roller to rest over a boiler half full of boiling water and allow it to be steamed for two or three hours, turning it occasionally. Keep the crepe on the stick until the next day, resting on the back of two chairs.

When wishing to renovate a small piece, lay a damp cloth over a very hot iron and lay the crepe over the steam.

To Clean Silver Trimmings

Lay the trimmings in some finely powdered magnesia for a few hours. Then rub gently with a soft rag, and finally brush with a hard and clean brush.

WAR DRAFT FACTS TOLD

Information of Interest to our Readers Given

Many Men in Service Under the Draft

Portland, Ore., June 7. Since draft registration day on June 5, 1917, one year ago, when the draft machinery was put into operation for the first time, a total of 1,595,708 men have been called to the colors in this country under the selective service law, including those called this month.

These figures are made public in an announcement by Provost Marshal General Crowder at Washington, in which he gives the warmest praise to local and district draft boards.

His interesting statement and review of the first year of the operation of the draft follows in part:

"One year ago occurred the first registration for military purposes of the young manhood of the nation. Ten million men responded in a single day. This accomplishment was nothing short of marvelous. The task of utilizing this enormous force seemed unachievable. But the work of classification of this great mass of man power in such a way as to permit of its organization and moulding into an effective army was entrusted to 4,663 local boards and 156 district boards constituting a force of nearly 15,000 of the leading citizens of every community who assisted in their work by more than 100,000 equally patriotic volunteers, have performed work that challenges the attention and excites the admiration of all our people.

"Well may we pause today while another million of our youths enter the lists, and survey the results of the year's work. Each registrant has been examined and his availability for military service has been determined. In other words these millions of men have been classified in such a manner that the nation may now call for them to come forward into the army. No call can be so large that it will not be filled immediately whether the number be such as may be filled by those who have been found to stand in the first rank of available, or so great that meeting standing in the second, third or fourth ranks of availability must go forward. In other words of these millions of men who one year ago were an inert mass have become a mobile army. Each has found his place and each has his proper turn has marched or awaits the order to march.

"These results could not have been accomplished except by the devoted and unselfish labor of patriots. The local and district boards have scored an unprecedented triumph and have earned the undying gratitude of the nation. Their achievement is one of the great successes of the war. They have already sent into camp including those under orders for June mobilization an army of more than a million and a half men.

"They have already produced as soldiers one man out of every six registrants and the world stands in profound astonishment as it views this accomplishment."

Several patriotic ladies have offered to return their surplus white flour to the grocery stores for shipment to Portland where it is to be resacked for transport to France.
