COW THEY SAVED THEIR HOME

They storted their new happy life of love and hope together in a trim-bright finied little house that stood back upon a terraced lawn. A smooth path led to the broad "stoop" and hospitable piazza. The long sweep, of roof, the wide curving "bays" and the little western turnet with oriel triudous bespoke ample room and light and six and garrenns sumsets.

HOW TROUBLE CAME.

At first it seemed smooth sailing. He was glad to work over-time, and she being deft with needle and sersors helped the neighbors with their gowns. In such ways a few dollars were added to the small, home-making fund. Day after day, early and late, they carnestly planned and toiled, never realizing that they were going beyond their strength, until the little break downs began to come.

Many a morning he would rise with his head feeling as he expressed it, "like a lump of lead," and no stomach for the dainty breakfast she had prepared. "O, you must eat!" she would exclaim anxiously, "You can never work without it." And all the time trying to smile, she would pass her hand lightly across her own forehead as if to brush away the pain that snapped and darted underneath.

Then came days when he could neither eat nor work at all; when his sight was blurred and dizzy, his limbs weighted down as if with shackles; his whole body full of sickness and nausen and distoste of living, and his mind dark with dismal forebodings. Describing this terrible time sfterward he said to a friend:

What troubled me most was that I could not understand what was the matter with me. The doctors said it was consumption; they did me no good. I arrew something was killing me by inches Fimally I had to give up and go to bed. I could hardly lift my head off the pillow. My brother wanted to write to Dr. Pierce of Buffalo, and brought me three bottles of his Golden Medical Discovery' and begged me to take it. I didn't have much faith but said to my write:

"What's the use? The doctors don't help me a bit and nothing else will. At this rate I'll die anyway. This 'Discovery' can't hurt me, it may help me. I'll try these three bottles just to please 'im. He was right too. The first bottle at straight to my digestion and gave me an appetite so I relished my food. I felt as if every monthful was doing me good and making good blood in my veins. I began to feel better and pick up my flessh, my bowels came around right and I guess my liver sout of waked up. My cough stopped. I got good and strong and in four weeks I was back at work in like a man."

HOW TROUBLE WENT AWAY. "My wife never let on how miserable she was feeling all the while; when I found it out I made her take the 'Discovery' too and Dr. Pierce's Favorite Prescription for her nerves, and she says she's just made over new again. I sent for his great 'Medical Adviser.' It's the grandest book you ever saw. If we'd had it before, we would have saved hundreds of dollars."

Then came new horses new plans were

would have saved hundreds of dollars."

Then came new hopes, new platts, new power and fresh achievements. The little home in time became their very own, carned and paid for by the erstwhile nerveless hands and brain now restored to vigor and activity by the most remarkable life-renewing "Discovery" that medical science has ever revealed to man. And when at length a sweet, fresh little life came to bless their lives, they fell that happiness was complete.

This is a true story and it cannot be told too often or too strongly. What this great "Discovery" did for this man, it has done for thousands of men and women in every corner of this Union, and in every civilized country on the globe.

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.
