SHAFTER AT MONTAUK.

Commander of the Sautiago Campaign Again on American Soll.

New York, Sept. 8 .- The transport City of Mexico, with General Ehafter and staff, was sighted off Montauk Point at 6:40 A. M., and an hour later

dropped anchor in Fort Pond bay. General Shafter and his staff were landed shortly before 1 o'clock, being taken off in the auxiliary gunboat Alean and landed at the floating dock, some distance away from the quarantine pier. General Young was at the pier at the time.

The coming ashore at the float of the commander and his staff was unexpected. General Wheeler had the cavalry drawn up at the quarantine pier and the guns waiting to salute General Shafter. He was not aware that General Shafter was on shore until General Shafter and his staff had been drawn to the detention hospital in carriages. General Wheeler was a little put out when he learned that General Shafter had landed.

General Shafter was in good health when he came ashore. On the City of Mexico besides the general and his staff came one company of the First regular infantry. No report as to their condition has been made.

General Wheeler, when informed that General Shafter was ashore, ordered the salute of 15 guns fired. It was difficult to get near General Shafter at the detention camp, but the commander of the Santiago campaign sent word to the correspondents that he was glad to be on American soil once more, but was sorry to learn that so many of his men had died and were still sick at Montauk. He said, however, that had the troops remained in Santiago they would have fared still worse.

Surgeon Meyer, who came north on the Allegheny, had something to say today as to the condition of the transport. It was on this vessel that 15 Ninth Massachusetts men died. Surgeon Meyer stated that when the Allegheny left Santiago there were but 12 sick men on board, but illness developed very quickly on the voyage, and when out a few days deaths occurred at the rate of three a day. The Massachusetts men and the First Illinois men were landed from the Allegheny today, and the 145 sick were sent to the hospital. The men from the City of Mexico were also taken ashore.

General Shafter is now, strictly speaking, by reason of rank, in command at Camp Wikoff, but he will not assume the reins of control until his term in the detention camp is finished. In an interview this afternoon, General Shafter said:

"I enjoyed the trip north on the City of Maxico greatly, but more so on account of the ship being a prize. From a casual observation, I like Camp Wikoff. It seems just such a place as I should have selected. I shall acquaint myself thoroughly with all the details of the camp. "I knew nothing of the Miles-Alger

controversy until I was shown a paper on my arrival here. I will not discuss it, now that I am familiar with the phases of the case, nor will I enter the controversy at any time. Secretary efforts than any other nation, save Alger and General Miles can take care

oplated in statehood and New Mexico for 52. It was 59 years before Wisconsin and 83 years be-

fore Montana became states. "It is objected that the inhabitants are allen races habituated to other institutions and forms of government, but Florida, when acquired, was peopled by Indiana and Spanlards; Louisiana by Spaniards, French and negroes; alien races and institutions existed in

New Mexico and Arizona; and Alaska had Indians in the Yukon and Russians in Sitka "It is objected that we will abrogate the Monroe doctrine; but that doctrine. freed from its academic cobwebs, is the nonintervention of European powers in matters relating to the American contineat. Its converse is nonintervention

of America in matters relating to the European continent. That has nothing to do with American intervention in Asia nor with legitimate expansion of our territory in the Orient. If we are abrogating the doctrine, it must be be cause the Orient is exclusively for Orientals, and not for English and Russians, and Germans and French and Hollanders, who are all there now and

are fast appropriating the Orient to themselves. "Finally, it is objected that we will be involved in entangling alliances, and will depart from precepts of Washing-

ton's farewell address; but Spain provoked continuous trouble at our very doors for a hundred years. Mexico and Central and South America have had revolutions without number; Great Britain bounds our territory for thousands of miles; and yet, for a century, we have avoided entangling alliances, although both propinquity and provocation exist.

"The nations of Europe are encentrating their energies on the shores of the Pacific. England pushed through the Canadian railway to foster her Pacific trade. Russia is building a trans-Siberian road for the same purpose;

No Sign of Andree.

Tromsoe, Norway, Sept. 1.-The steam whaler Fritjof, having on board Walter Wellman and members of expeditions to Greenland, has resumed her voyage, after landing an expedition at Cape Tegethoff on the southern point of Hall's island. While the Wellman party was returning they met an expedition to Franz-Josef Land, under Dr. A. G. Northorst, and were informed that all search for Andree, the missing balloonist, had proved futile.

A Double Drowning. Rochester, N. Y., Sept. 1.-Miss Fanny Beck and Charles Herrick, editor-in-chief of the Law Co-operative Publishing Company, of this city, were drowned at Syndor beach, on Lake Ontarlo, seven miles from this city, last help could reach them. The bodies were recovered.

other than pack trains. A DESTRUCTIVE TYPHOON.

Many People Killed and Great Damag such a climate." Done in Formosa.

Vancouver, B. C., Sept. 2 .- Oriental advices received today give details of the destruction caused by a typhoon which passed over Formosa early in August.

At Tailpeh, 768 houses were destroyed, 395 seriously damaged and 23 washed away. Nineteen people were The lowerst bid of each for any type of killed, and the injured ran up into the

At Kelung the damage caused to small boats and cargo lighters cannot be calculated. The steamer Enoshima Maru was blown on the beach. The railway station and go-downs and soldiers' barracks were totally destroyed. Many people were rendered destitute, The storm began about midnight, August 5 and lasted until the morning of the 8th.

AN EXPRESS ROBBERY.

Package of Bills Stolen From a Delly ery Wagon in Omaha. Chicago, Sept. 2 .- A special dispatch to the Times-Herald from Omaha says:

Robbers secured \$6,000 in cash from the Pacific Express Company in Omaha today. The money was consigned by the First National bank of Omaha to the Citizens' National bank of St. Paul, Minn. It was placed in a small iron safe in the delivery wagon of the express company and in the custody of George Archibald, driver, started toward the depot. En route, Archibald stopped at several wholesale houses for other packages. He drove down an alley and went in for a package of jewelry at the shipping door of a jewelry house. When he came out the door of the safe was standing open and but one

package was removed. This was the one containing \$6,000 in bills. The driver reported, the matter and was at once arrested.

#### Not Allowed to Land.

Washington, Sept. 2 .- Telegraphic advices were received at the state department today to the effect that Clara Barton arrived at Havana yesterday on the steamer Clinton, No. 2, with supplies for the starving inhabitants of that country, and the Spanish authorities at Havana refused to allow the supplies to be landed and imposed a fine of \$500 upon the master of the relief ship because he had no manifest. The vessel cleared from Santiago for Havana.

Killed at a Crossing

Ware, Mass., Aug. 81.-A railroad train on the Boston & Maine railroad struck a buckboard at Whiting's crossing tonight and killed five members of a pleasure party. The killed are: George Whiting, aged 50; Jesse Whitnight, while bathing. They were ing, aged 18; Gcorge Whiting, jr., aged seized with cramps and perished before 18; Sadie Whiting, aged 20; a boy not identified.

THREE BATTLE-SHIPS.

Bids for the New War Vessels Openeo in Washington.

Washington, Sept. 3 .- Four firms today offered bids for the three new battleships authorized by the last congress. one vessel follows:

Newport News Shipbuilding Co, \$2,580,000; Cramp's, Philadelphia, \$2,650; Union Iron Works, San Fran-

cisco, \$2,674,000; Dialogue & Co., Camden, \$2,840. The result of the bidding is eminently satisfactory to the navy department. From the face of the bids it is clear that the government is going to secure much more in the matter of power and speed than was expected; that the cost is going to be less than was paid proportionately for the Illinois class, and, finally, that the department will be able to distribute the work among the three big building concerns, a method of construction that always redounds to the advantage of the government.

The Newport News Company is the lowest bidder, but bids for only one ship. The highest is the Union iron works, but the act of congress makes an allowance of not to exceed 4 per cent in favor of the Pacific bidders, so that brings their bid within line. The Cramps come in between them, and consequently the three ships are likely to be distributed geographically in that order. In the case of the 18-knot ships, both the Cramps and the Union iron works submitted similar plans. The in an acid bath, the two metals being Newport News bid for the 18-knot ves- electrically coupled. sel is original with them. If it should not be satisfactory to the department, then the Cramps would probably get two ships

The bids have been taken under advisement by Acting Secretary Allen. The bids were made in three classes,

the first being under the plans prepared by the navy department calling for ships of about 11,500 tons with a speed of 16 knots. Other classes were under plans prepared by the builders themselves, and in some cases additional plans were prepared by the engineering bereau, but included in the original specifications sent out to bidders.

Twelve girl friends of the bride at a Kansas wedding supplied the music by whistling the wedding march.

Pacific Cable Plans.

New York, Sept. 8 .- At a meeting of the directors of the Pacific Cable Company, held at the office of J. P. Morgan & Co., plans were considered for establishing cable connection with the Philippines, the Asiatic coast, Japan and Australia, via Hawaii. Surveys for a duplicate cable, via Sitka and the Alentian islands, were ordered. James A. Sorymser, president of the Pacific Cable Company, will sail from Vancouver for Japan on September 13.
