The readers of this paper will be pleased to marn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive erre known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Calarrh Cure is taken internally, acting directly upon the blood and uncous surfaces of the sysiem, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Deliarior any case that it is its ocure. Send for this of testimoulais. Address

Miss Klumpke has, through the patronage of Admiral Mouchez, been placed at the head of a new department at the Paris observatory, She is in charge of the bureau of measurements and is now engaged in producing a huge photographic chart of the heavens and compiling a new stellar catalogue.

THE DUTY OF MOTHERS.

Daughters Should be Carefully Guided in Early Womanhood.

What suffering frequently results from a mother's ignorance; or more properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment and her mother should see that she gets it.

Many mothers healtate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

The following letter from Miss MARIE F. Jounson, Centralia, Pa, shows what neglect will do, and tells how Mrs. Pinkham helped her:

"My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back. I was also troubled with irregularity of menses. I was very weak, and lost so much flesh that friends became alarmed. My mother, who is a firm believer in your remedies from experience, thought perhaps they might benefit me, and wrote you for advice. I followed the advice you gave, and used Lydia E Pinkham's Vegetable Compound and Liver Pills as you directed, and am now as well as I ever was. I have gained flesh and have a good color. I am completely cured of irregularity."

WEEKLY MARKET LETTER.

The wheat trader's success last week he happened to be faced. If he looked of the market. The influence of the if he resisted the temptation to put out lion wheat a day. If he did not have Saturday night it was because he has no aptitude for the opportunities.

Chicago was incliend to be skeptical

of the export figures. It was not doing much itself, but the man who was considered, cheaper than this market. and that the seaboard also had grain of its own bought on cheap freights that future and, at the same time, the recould be sold ahead of Chicago offerings. The best export authorities agreed as to enormous sales abroad. Consequently there is no room for denial or for pretense that it is largely a matter of exaggeration. Lohrke, whose word is to be accepted in this matter, in an interview yesterday, said the business accomplished during the past fortnight was on a scale probably never exceeded. This authority, when asked as to the probable permanency of the foreign demand, in an interesting explanation showed how the foreigners themselves were so uncertain of the situation they were not venturing to specu-

late any on the bull side. The wheat price this year is to be a matter of mood-the mood of the farmer the world over. If it were to be deelded by the facts as to supplies, the bull, to have any success, would need to make his purchases on the very weak days. Every authority is agreed that the world's harvest last season was the fullest ever known, and with that alone in mind the speculator might make comparisons with the low prices of the other years of great crops.

CUBAN QUESTION SETTLED. A Beautiful Girl's Affliction.

Spain Relinquishes Sovereignty Ove the Island Without Conditions.

Paris, Oct. 29 .- The Spanish peace emmissioners have accepted the negadepended upon the direction in which tive view of the United States commissioners toward the proposed assumption toward the west he made no money out by the United States of the Cuban debt. The American commissioners have largest primary receipts on record kept firmly but courteously declined to him off the buying side. He was lucky assume for the United States entire or joint responsibility for Spanish finan-

a short line. The operator who kept cial conditions, and the Spanish comhis eye on the seaboard was the lucky missioners have finally abandoned the He saw there the largest export effort, and have agreed that the Cuban engagements ever known, about a mil- article of the protocol shall, without conditions, have a place in the ultimate confined to bed, was very nervous and some money to the good at the close treaty of peace. Thus Spain agrees to irritable, and seemed on the verge of relinquish sovereignty over any claim to Cuba without either terms or conditions.

It should be said that the adjustments already accomplished will stand closest to the shipping position knew in the final treaty, unless opposing that Duluth was, quality and freights views and positions on the Philippine question should develop hereafter and bring to naught the efforts of the sults already obtained.

All differences, if any existed, regarding Porto Rico and the cession of the islands of Guam were also arranged by mutual understanding, and the commissioners found themselves well nigh touching the Philippine question, which will be taken up next week.

RIOT AT ARECIBO.

Serious Clash Between Porto Rican and Spanish Soldiers.

San Juan de Porto Rico, Oct. 29 .-Full details of the Arecibo incident of Sunday, October 9, have been received here. It appears that the trouble began in a row between some Spanish soldiers and a number of countrymen, The soldiers fired upon the crowd, killing four men and wounding many. The crowd, to the number of 200, secured machets and rushed through the streets, the soldiers retreating to the barracks. The people then carried their wounded to the house of the British consul, where they found several United States officers and soldiers, from whom they asked justice.

The same afternoon, a party of 40 Porto Ricans completely destroyed the business house of a well-known Spaniard. During the affair an American was killed. During the night, 17 different fires in the surrounding country were counted from the housetops of Arecibo, and on the following night 24 fires were counted.

HAVANA CAMP SITES.

Two Locations Selected by the Board of Army Officers.

Havana, Oct. 29 .- This afternoon a note was delivered to the American commissions by the Spanish, saying that on the day the protocol was signed all the mines at the harbor entrance were removed. They assert also that there were never any others. The board of army officers appointed

to select camps and landing places for the United States troops has definitely selected one site for a camp east and another west of Vento aqueduct, close to the springs. The camp sites will accommodate from 12,000 to 15,000 troops. Six million feet of lumber has been ordered, and each individual tent Will be noored Warehous put up, as well as shops and all necessary outhouses, and arrangements will be made for a sufficient water supply

RESOURCES OF NEW MEXICO.

Governor Otero Renews His Plea for Admission.

Washington, Oct. 29. - Governor Mignel Otero, of New Mexico, in his annual report to the secretary of the interior, vigorously renews his representations for the early admission of New Mexico to statehood, and portrays the undeveloped resources of the territory awaiting capital. He estimates the total population of the territory now at 282,100, including an Indian population of 25,900. Of the 1,100 officers and men from New Mexico in the war with Spain, at least one-half were national guardsmen.

The report lays special stress on the possibilities of irrigation, and says all the water uselessly running away shortly will be utilized to the highest degree, Meanwhile, individual enterprise is erecting a multitude of windmills throughout the territory.

Eight Were Lost.

Rochester, N. Y., Oct. 29.—A special to the Herald from Sodus says: The three-masted schooner St. Peter, of St. Vincent, sank this afternoon about five miles northwest of Sodus. schools. on Lake Ontario, with all on board save Captain John D. Griffith, who was rescued in a precarious condition. The captain's wife was lost, also Mate McLaren, of Kingston. Eight persons, at least, perished.

It is thought the St. Peter lost her rudder and that the heavy seas caused her to spring a leak. The vessel was bound from Oswego to Toledo with 700 tons of coal.

Railway to Lake Atlin.

Victoria, B. C., Oct. 29 .- The official gazette gives notice of the intended construction of a railway from North Vancouver to the Lake Atlin gold fields, via Bridge river and Lillooet. There is said to be strong financial backing behind the scheme, and work will be pushed immediately.

No Paupers Wanted in Santiage. Santiago, Cuba, Oct. 29 .- The French consul here has written to General Wood protesting strongly against the order prohibiting the landing of negroes from Hayti. General Wood replied that he could not allow any more paupers here, as there were too many of them already.

In a recently discovered Roman tomb the skeleton of a woman was found which had a complete set of false teeth beautifully wrought in pure gold. On the Trail of Old Bog.

Walker, Minn., Oct. 29.-Deputy Marshal Morrison will start in the morning to round up the renegade Indians. Deputies Talman and Warren in a day or two will join in the hunt for Old Bog and adherents. Bog has been seen by many Indians, so there is no doubt he is still alive. His home is empty and furniture removed.

Tacoma, Wash., Oct. 29.-J. A. Carlson, an employe of the Western Woodenware Company, was caught by a belt attached to a bandsaw and dashed to pieces this afternoon.

From the Republican, Versailles, Ind. The Tuckers of Versailes, Ind., like est. all fond parents, are completely wrap-Their ped up in their children, daughter Lucy, in particular, has given them much concern. She is fifteen, and from a strong, healthy girl, three years ago, had become weak and kept falling off in fiesh, until she became a mere skeleton. She seemed to have no lite at all. This is just the time of the year we feel the muscles all sore and stiff, and then is just the time to use St. Jacobs Oil to relax them and to cure at once. How Grapes Can Be Kept.

Purchase a lot of small bags and get a ball of twine. Pick out perfect bunches of grapes, handling them as little as possible, and being sure that they are perfectly dry. Remove any poor berries carefully and place each bunch in a paper bag. The up each bag and then place in a shallow box in a cool room. The grapes must not be Imitation ivory is now being exten- ripe enough to drop from the stems. cively manufactured from the fruit of Only one layer of the bage must be a palm-like shrub called Phytelephas placed in a box. Concord grapes can macrocarpa, which is about the size of be kept until Christmas in this way. an apple and possesses a hard interior It is well to examine the bags every few days, and if there are any damp spots, open the bag and remove the decayed
