Father Time's scythe is a weapon that no man can escape. Sooner or later it must lay all men low.

With premature death it is different. Nature intends that every man should live a long and useful life, and die a peaceful, painless death. Men defeat the intention of a beneficent Providence by the manner in which they

live, their disregard of the laws of health and their utter failure to protect health when it is threatened and restore it when it is lost. The most common result of neglect of health is that dread disease, consumption. Not many years ago it was considered incurable. Now it is known that Dr. Pierce's Golden Medical Discovery will cure 98 per cent. of all cases if taken in time. That is its record during a period of thirty years. Many of the thankful patients have permitted their names, experiences and photographs to be reproduced in Dr. Pierce's Common Sense Medical Adviser. Any sufferer who wishes to investigate, these cases may secure a copy of this book free, by sending 21 one-cent stamps to cover cost of mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., and then write to the patients themselves. In consulting Dr. R. V. Pierce by letter, the sufferer consults a skillful specialist who for thirty years has been chief consulting physician to the great Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. With the assistance of a staff of able physicians, he has successfully treated tens of thousands of cases of bronchial, throat and lung affections. He will cheerfully answer letters from all sufferers, without charge. Address the Doctor as above.
