Noel Graves of Patterson creek Calif., formerly of Jacksonville, while standing by his team last week, got kicked, sustaining severe injury. It appears from the report that the team started to run. Mr. Graves caught the lines, hitting the nigh horse as he did so. The animal kicked him three times ere he fell. The team ran to the barn and was caught wedged in the doorway.

A. T. Lundgreen, the miner, is down from the Blue Ledge district. Mr. Lundgreen has just taken the contract for 100 feet of tunnel work on the Blue Canyon group, and 70 feet on the Estacado. The Juveniles waxed it to the Medford Walkovers last Saturday afternoon. The score was six to eight. None of the Jacksonville boys are over fourteen years of age, while, from appearances, the Medford boys are from fourteen to eighteen. But the Jacksonville kids beat 'em, as Jacksonville beats everybody. Great is Jacksonville!

K. K. Kubli, wife and two children came down from Portland the first of the week to visit relatives, and to spend the Fourth. They were accompanied by Mrs. Phil Metscham and daughter, Dorothy, of the Imperial hotel, who will also visit here for a short time. Mr. Kubli is about to close a deal on the Golden Standard mine on Gull's creek in which he is heavily interested.

The second baseball nine went over to Gold Hill last Sunday and scored the greatest triumph of the season by shutting out the Gold Hill team entirely, while the Jacksonville boys succeeded in running in eleven big tallies. Everybody played ball. Will McIntire did the work in the box while Ephraim Wilson caught, and both of them deserve mention for their good work. There was but few errors on the part of the Jacksonville boys, and they are beginning to play the game like professionals. They say they want to give the first nine a run for their money some time in the near future, so a game between the two home teams will probably be arranged some time within the next few weeks.

County Assessor Applegate returned Wednesday from a trip to the Buzzard mine on Elk creek in which he is one of the owner. The mine has been bonded to eastern capitalists.

Because of the loss of a day or two in the Post office it was necessary to omit a great deal of news in order to get out on time. The paper will resume its usual size next week.

A number of newspapers throughout this section "have had it on reliable authority" that the R. R. V. Ry. company will electrify their road; that they will run branch lines to every town and hamlet in Rogue River valley, etc., etc., etc. As a matter of fact no information of any kind has been given out. It is safe to say, however, that the line will NOT be electrified. It is true that the road will be greatly improved, with new equipment, trackage, etc., but it will be as a steam road.

Manager Estes states that it is the intention of the P. & E. company to build to Butte Falls and Jacksonville at once and that the delay will be limited to the time necessary to complete the preliminary arrangements. The Butte Falls line will be extended beyond the "Sticky" this fall and will be completed to the Falls in the spring. The Jacksonville extension will be pushed as soon as the route has been determined upon and as soon as completed the train service will be commenced and a rapid transit schedule, commutation tickets at ten cents for the trip to be sold good for the month in which issued. All the trains will make suburban stops and several stations will be located at different points along the line. It is the intention of the company to help build up the section between the two towns, and thereby improve the prettiest section of the city. Tribune.
