A large delegation from Jacksonville will help Medford celebrate during Carnival week. They will hear some able addresses regarding fruit culture, besides a good, big entertainment is being prepared so that the entire time will be one of enjoyment.

The second baseball nine went over to Gold Hill last Sunday and played the Hill-arious boys a game that was good for sore eyes. The score was 6 to 1 in favor of the Jacksonville boys. Had it not been for an error on the part of the second team it would have been a complete shut-out. But the boys are satisfied. Next Sunday they expect to play the Central Point team on the Central Point diamond, and intend bringing home a lot of scalps.

George E. Neuber has started development work on his claims adjoining the great Blue Ledge. John Huffer and Ed. Day left Wednesday morning for Joe Bar where Waite and Campbell will meet them with pack horses and will take their provisions to the mine. E. L. Jones, who has made so many successes in that district, will superintend the work. These claims lie directly south of the Blue Ledge mine and it is possible to walk on the same ledge all the way through both properties. Mr. Neuber has been offered fabulous prices for his claims, but has steadily refused, preferring instead to develop the property himself. A tunnel will be run on the property to disclose the ore body, and work will necessarily have to be hastened as snow begins to fall early in that section. As soon as the rigors of winter drives them out of that place, work will be started on Squaw creek where Mr. Neuber also has some valuable claims.

It has been suggested that each business man sweep and clean up in front of his place of business once a week so that the street commissioner can haul the rubbish away. Her other new house on Third and Pine is now complete, and is a neat and handsome dwelling house. Mrs. Kubli contemplates the erection of several more dwelling houses, which is positively the best proposition that can be found in Jacksonville.
