

LOCAL NOTES

Bank of Jacksonville Is O. K.

The failure of the Oregon Trust and Savings Bank will have no effect whatever upon the affairs of the Bank of Jacksonville. The only connection between the two being that the defunct bank would have been the Portland correspondent of the local bank. Mr. Davis the cashier of the Jacksonville Bank has already money enough offered to take up all of the capital stock of the bank. There could be no better paying proposition and the Jacksonville Bank will open its doors for the transaction of business just as soon as its building on the corner of California and Third streets can be completed for occupancy.

There is not in Jackson County a man of more sterling worth nor of better business capacity than Mr. Davis, the cashier of the new bank, and everyone has implicit trust and confidence in him. A telegram from him from Portland received today by his local attorneys states that his bank will open for the transaction of business promptly on time and that the failure of the Portland bank will have no effect whatever upon his plans.
