We cannot ask a packing house to locate here; the freight is too high to reach market, although it would be the best natural location in the state for an enterprise of this kind.

This is an excellent location for a sash and door factory, cooperage and winery, and the best brick clay to be found anywhere can be found in unlimited quanities on the outskirts of the city. In order to induce people to come here and invest we must have better transportation with a 10 cent fare to Elected county judge of Jackson county. Medford. Many Medford business men would move their families here, because the climate is so much nicer here and the city is beautifully located.
