A traveling salesman of Portland who was in the city this week said that this office did better job printing than any office south of Portland. This man is in a position to know, because good job printing is a part of his business. Why not? With the best equipments in Southern Oregon; with a man who has held responsible positions in the largest printing establishments on the coast and then not do the best work south of Portland? Well!

## Base Ball

The baselball game played on the Medford diamond last Sunday was very good. Both teams need practice. With light batting and good infielding the score was held down to 3 to 2 in favor of Grants Pass. Medford made two runs in the first inning and the rest of the game was a blank. Grants Pass made one run in the third and kept in the game until the ninth when they made the two runs necessary to win the game. A large portion of the spectators were Jacksonvilleites.

The Jacksonville team offers to play a picked team from the county for a purse of \$100.

Considering the fact that Central Point was offended two weeks ago on account of some posters circulated stating that Jacksonville's second team would play Central Point we offer an apology in the way of a challenge: Jacksonville will agree to play a strictly junior team (under 18 years) on the home grounds on July 12, against a select team from Central Point. Both teams to be composed of men residing within the incorporate limits of the respective towns.

Speaking of a fruit producing country Jacksonville has gone the limit. Joe Wetterer bought to this office last Monday a limb of royal ann cherries 18 inches long with over 100 large, perfect red spheres. With the exception of a few spotted by the birds every cherry would demand the highest price in the market. This speaks well for Mr. Wetterer's ability as a horticulturist. The POST is having photographs made of the fruit and flowers presented to this office for publication in a special edition to be launched this fall.

## OUR NEXT PRESIDENT

The voters of the United States, in selecting the next president, should look into the matter very carefully before a choice is made for the presidency.

William Taft, the republican candidate, was secretary of war during Roosevelt's elective term and will no doubt carry out the Rooseveltian policy of government, otherwise the president would not be so anxious for Taft to receive the nomination. If you believe that President Roosevelt's policy was just and right then it is your duty to vote for William Taft. On the other hand if you believe that the policy was wrong and believe that a change would be better for the country, then it is your duty to vote for William J. Bryan, should he be successful in landing the nomination. It must be remembered that if Bryan should be elected the entire system of government would be changed as far as the power of the president was concerned. It would extend to the small rural postmasters who ek out a living by selling a few groceries and provisions and a small revenue from the sale and cancellation of stamps. The head of departments would be changed, and, in fact, every appointive position would be changed.

The policy of Bryan is well known, having been in two campaigns, he would recommend to congress the free and unlimited coinage of silver bullion at the ratio of 16 to 1, and would use his power to dispose of our Pacific possessions, as this was an issue of his second campaign.

Card of Thanks.

I, the undersigned, a grandson of the late Chasles Schultz, take this means of extending to those who so kindly assisted, during the sickness of my grandfather, my heartfelt thanks.

RICHARD GASKIN.

E. D. Briggs of Ashland was in the city Friday.
