CONTINUE PROSECUTION.

Government Attorney Says Standard Fight Has Just Begun.

Chicago, July 24.—United States District Attorney Sims today gave out the following announcement:

"The government will file a petition for a rehearing in the Standard Oil case before the Circuit Court of Appeals within 30 days. If that petition is denied, the government will push the prosecution of all the cases against the Standard Oil company. The fight has just begun."

It is supposed that Sims received his instructions from Attorney General Bonaparte, as he announced yesterday that he could make no statement until he had conferred with Bonaparte.

The first new cases to be taken up will be those in Tennessee. The trials will be held at Jackson, in that state, November 8. These cases involve 1,500 counts, and will be prosecuted by Special Counsel James H. Wilkerson. The action will be pushed forward as rapidly as possible.

Attorney General Bonaparte today wired District Attorney Sims as follows:

"I feel that you and your assistants have done everything possible to protect the interests of the government and promote justice. I will write to you fully on the subject as soon as the opinion comes to hand."

ENACTS HISTORIC SCENES.

Splendid Pageant Seen in Grand Old City of Quebec.

Quebec, July 24.—The prince of Wales was the central figure yesterday in the magnificent spectacle of reproducing Quebec's historic past and ushering in the 300th anniversary of the founding of the city by Champlain. Aside from the spectacular features of the event, it was the occasion for a notable exchange of addresses between Vice President Fairbanks and the prince of Wales, in which the former spoke of the existing relations between the United States and Great Britain and the prince delivered a message of good will to the American government.

An enormous crowd filled the Place d'Armes fronting the Champlain monument, where the exercises were held. Here the prince received the addresses of the American and French representatives, the mayor of Quebec, and finally Champlain himself, reproduced in the days of old, coming from the mimic reproduction of his original ship, the Don de Dieu, with some 5,000 followers representing every phase of old France in Canada.

DIE BY HUNDREDS.

Children's Disease Kills Ten a Day in Chicago.

Chicago, July 24.—Nineteen out of every 100 Chicago babies under 1 year of age have died during the first 22 days of July. This is about one-fourth of the quoted death rate of the city. There have been 10 deaths daily from bowel diseases of children under 2 years of age.

One of the noteworthy points of the city physician's report is in an Italian section of the city Gault Court. Here it was expected that, owing to the very congested conditions, a deplorable state of affairs would be revealed. Just the reverse was found. Crowds were there, and dirt was there, but babies, strange to say, were unaccountably healthy and strong.

According to Dr. Heman Spalding, of the Health department, the common house fly is one of the great contributors to the complaints prevalent among the city's children.

Standard Stock Soars.

New York, July 24.—Stockholders of Standard Oil company and John D. Rockefeller in particular have good grounds for elation in the reversal of Judge Landis' decision. Today each and every stockholder of the big New Jersey corporation is richer by \$22 a share than before the decision of yesterday. Yesterday the oil stock was quoted on the curb at \$640 a share, but today the price jumped to \$662 a share bid, but none was offered under \$680, or within \$20 a share of the highest price the stock ever brought.

Ostriches for Stage.

Los Angeles, July 24.—The efforts of theatrical managers to provide New York playgoers with novel features is responsible for a unique business deal just made in this city whereby a Los Angeles ostrich farm leases to a New York theatrical company six full grown ostriches for a period of 20 weeks. During that time the big birds will be featured in a New York production, and if the plans of the promoters go not astray a soubrette will appear as the rider of each ostrich. The six birds selected are now in training.

Shopmen Are Dissatisfied.

Winnipeg, July 24.—The shopmen of the Canadian Pacific in Western Canada are dissatisfied with the recent findings of the conciliation board that investigated the matters in dispute between the company and the men, and today, T. McVety, head of the mechanics in the shops in Western Canada, went to Chicago to consult with officials of the American Federation of Labor with a view to securing assistance. Ten thousand men are affected.

More Cotton Mills Resume.

Boston, July 24.—Several of the largest cotton mills of New England, which have been running on half time since the business depression became acute last spring, are preparing to resume operations to their full extent within the next week or two. Between eight and ten thousand mill operatives will be benefited by the change to full time.

NEWS ITEMS FROM WASHINGTON, D. C.

FORMS NEW UNITS.

President Makes Changes in Administration of Forests.

Washington, July 28.—A radical change is to be made in the administration of forest reserves, or National forests, during the coming fall; not a change of policy in any way, but a change in the manner of disposing of forestry business. The change is primarily in the interest of the people of the West, but incidentally it benefits the service, in that it will save considerable time, and permit of prompt action.

In brief, the large clerical force of the forest service, now maintained in Washington, is to be divided in halves; one half will remain here, the other half will be scattered over the West, wherever the service maintains division headquarters. About 250 clerks and stenographers will be sent out from Washington to Portland, San Francisco, Salt Lake, Denver, Missoula and Albuquerque, from 40 to 50 going to each place. These respective offices will be placed in charge of administrative officers, yet to be selected, and once organized will handle and dispose of practically all administrative questions that arise in their respective districts.

The Portland office, for instance, will handle all questions arising in the National forests of Oregon and Washington; Salt Lake City will handle cases from Idaho, Utah and Nevada; Missoula will handle Montana and Minnesota matters, and Denver will take care of questions arising in Colorado and Wyoming.

This change in administration will not entail any new appointments whatsoever. All the clerks will be transferred from Washington, and the administrative officers will be chosen from among the present officials of the service.

New Immigration Record.

Washington, July 25.—Assistant Secretary of Commerce and Labor William R. Wheeler predicts that during the next 12 months America will see the greatest flood of immigrants in her history. In an interview he declared today that all the aliens who fled to Europe on the advance of hard times last year will return, bringing others with them to the "land of promise." New York steamship companies alone, he says, have 600,000 return tickets out and the reappearance of good time will induce the foreign laborers to return to America. Wheeler gives it as his opinion that this influx will be headed toward the Pacific coast, where many opportunists await the laborer.

Resigns Under Cloud.

San Francisco, July 25.—Lieutenant Russell J. Hazzard, U. S. A., one of the party which accompanied General Funston on the famous expedition which resulted in the capture of Aguinaldo, the Filipino leader, will leave for Washington today to appear before the retiring board, seeking to be relieved from duty. The officer saw much hard service in the islands and is broken in health and spirits. Hazzard is the man who captured the deserter Arturo Howard, who is supposed to have killed General Lawton. For this capture General Chaffee recommended that Hazzard be given the medal of honor.

Benzoic Acid Harmful.

Washington, July 24.—"In the interest of health both benzoic acid and benzoate of soda should be excluded from foods." This is the conclusion of Dr. Harvey Wiley, chief of the bureau of chemistry of the department of agriculture, after a prolonged investigation to determine the effect upon the human system of these preservatives. The chemicals were given in various kinds of foods to Dr. Wiley's so-called poison squad, and he declared that their use is highly objectionable and produces very serious disturbance of the metabolic functions, attended with injury to digestion and health.

Pearl Harbor Plans Forwarded.

Washington, July 20.—According to advices received at the Navy department here from Honolulu, the board of officers, of which Admiral Sinton Schroeder is president, appointed to investigate the plans for a naval base at Pearl Harbor, has forwarded its report to Washington. It is understood that the report makes recommendations for the location of docks and the defenses of the harbor. The chief of the bureau will visit the site.

Secure Data in Europe.

Narragansett Pier, R. I., July 24.—At the forenoon session today of the monetary commission, a proposition was submitted for the appointment of a subcommittee to go to Europe in August. The subcommittee probably will comprise Senators Aldrich, Hale and Daniel and Representative Pagget, and Representative Burton, of Ohio, a member of the commission who is now in Europe, would be the fifth member.

Japanese Sealers Busy.

Washington, July 28.—A dispatch received by the Navy department today from the gunboat Yorktown, on sealing patrol duty about the Pribiloff islands, Alaska, indicates that while the situation in sealing waters at present is quiet, five Japanese schooners are sealing near the island of St. Paul. If the sealing vessels should encroach upon the seal preserves a serious clash is probable.

GIVES ADDITIONAL TIME.

Commission Defers Operation of Reduced Rates on Lumber.

Washington, July 30.—Upon application of the defendants in the Pacific Lumber cases, the Interstate Commerce commission has extended the effective dates of its orders from August 15 to October 15. This action was taken upon the showing made by the carriers involved that, owing to the immense number of rates involved, it would be a physical impossibility to check up the rates and print and file the new tariffs before August 15, and also upon their assurance that, if the extension was granted, they would not apply for an injunction to restrain the commission's order from becoming effective.

They expressly reserve the right to test the reasonableness of the rates ordered by the commission in a suit to be brought for that purpose or in suits which may develop out of reparation claims by shippers who have been shipping under the advanced rates. This does not include the case involving rates from the Willamette valley via San Francisco, on which the Southern Pacific has already filed a petition in San Francisco asking an injunction against the commission's order.

TRYING TO GET RESULTS.

Naval Conference is Struggling With Task Roosevelt Set.

Newport, R. I., July 25.—The naval conference met again today to continue the discussion of battleship plans and, it is believed, will continue daily meetings for some time to come. In the executive council, following the president's speech of yesterday, Mr. Roosevelt plainly told the officers present that he wanted "results" and would insist on them before the conference adjourned.

It was said that one result of the conference would be to abolish the general board of the navy, but officers now attending the sittings of the conference are widely varying in opinion as to the possibility or desirability of any such course.

Kills All Exequators.

Washington, July 20.—Drew Linard, American consul at Ceiba, Honduras, called the State department today that President Davulla had canceled his exequatur and those of all the other consuls at that port. There was no explanation of the act in the cablegram, but it is thought here that the consuls united to prevent the execution of revolutionists who had incurred the displeasure of President Davulla. It is likely that an additional gubnet will be ordered to Amasola at once to assist the Milwaukee in making a demonstration against the revolution. The Milwaukee was ordered from Honolulu Monday.

Wright to See Roosevelt.

Washington, July 29.—Secretary of War Wright expects to go to Oyster Bay the latter part of this week to confer with the president on pending matters of importance. The papers in the case of the eight cadets, whose dismissal from the military academy was recommended by a board appointed by Colonel Scott, superintendent of the academy, have been returned to the War department from Oyster Bay, bearing the approval of President Roosevelt of the findings and sentence of the board.

Postoffices on Warships.

Washington, July 24.—Arrangements are being perfected for the installation of a postoffice on every ship in the United States navy, authorization for this action having been made at the last session of congress. Under the provisions of the enabling act enlisted men on each ship may be appointed as postmaster and assistant postmaster, their regular pay to be increased \$500 and \$300 a year, respectively. They will be required to give bond of \$100.

Complain of Overcharges.

Washington, July 29.—The Interstate Commerce commission today received a complaint from the Carstens Packing company, of Tacoma, Wash., against the O. R. & N. and Northern Pacific railroads alleging an overcharge of about \$20 a car on shipments of cattle from Ontario, Or., and Nampa, Idaho. Complainants say the cars were routed via Portland when they should have gone by way of Wallula, Wash.

Shippers' Letter Not Received.

Oyster Bay, July 29.—When asked today whether President Roosevelt had taken any action on the letter reported to have been sent to him by the Receivers' and Shippers' association of Cincinnati, asking him if he intends to enforce a decree against several railroads forbidding an increase in rates, the president's secretary said that no such letter had been received by the president.

Select Building Sites.

Washington, July 29.—J. H. McDowell, of the supervising architect's office, has been selected special agent for the Treasury department to select sites for public buildings at La Grande and Pendleton, Or.; Walla Walla, Wash., and Pocatello, Idaho. Mr. McDowell leaves for the West tomorrow.

Equipped to Lay Mines.

Washington, July 29.—By direction of the Navy department the cruiser San Francisco is being equipped for the laying of mines.

PICNICERS

Will Find Our Assortment of
