THE JACKSONVILLE LIBRARY

Plans for the resuming and broadening of the Jacksonville Library were discussed by the dozen ladies who met at the home of Mrs. Josephine Russell Thursday afternoon.

A box of fifty new books has been sent for and will arrive next week, after which they may be obtained at the City Hall on Saturday afternoons. A reading table will also be conducted for which magazines either old files or current numbers are solicited.

As the number of books in the state circulating library is small, the people of this city are asked to contribute toward a permanent Jacksonville Library. Funds are wanted with which to purchase new books, and books are solicited for immediate use, loaned or donated, old or new, history, biography, travel, poetry, science, fiction and juvenile.

A bookcase with doors is needed for the safe keeping of the library, and the gift or loan of such a case will be greatly appreciated.

Miss Fay Sears spent the first of the week in Medford.

Why Colds are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria scarlet fever measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by City Drug Store.
