COUNTY GETS STEEL CABINETS

The new steel filing cabinets for the county clerk's office, ordered by the county court some time ago, arrived Thursday and are being installed in the vault by Mr. Fargo of Portland.

This is a great improvement to the court house furniture, and shows that the present officials intend to do something for the benefit of the taxpayers.

The cabinets were manufactured in Youngston, O., by the All Steel company.

CROSS SANDS TO ASHLAND

After next Saturday Ashland will have the distinction of being the smallest city in the world supporting a Temple of the Ancient Arabic Order of the Nobles of the Mystic Shrine.

The new temple will be instituted by J. G. Mack illustrious potentate of Al Kader Temple and deputy imperial potentate assisted by the Arab patrol. The Arab patrol of Al Kader Temple it may be mentioned in passing is one of the best uniformed and drilled bodies of its kind in the United States. It will act as an escort to the potentate on the way to and from the Ashland Mecca.

It is reported that about 60 or 70 nobles will constitute the charter membership of the new shrine. Many are now members of other temples but there will be enough new pilgrims essaying the trip across the burning sand on the dromedary to whet the appetites of the veterans for the delicacies and zemzem under which the festival board will create.

FIX THE ROADS

The road leading out of this city to Medford is in bad condition for winter travel. There is ample gravel all along the road to repair it with and all that is needed is a scraper and a team of horses. This road could and should be kept in excellent condition, because the expense is almost nothing.

The experiment with granite on California street proved a success, and all streets in the city should be treated in like manner.

The Jacksonville Musical Club, had a social meeting for its members last Thursday evening. An excellent program was rendered by members of the club, after which they entertained themselves by playing whist. Dainty refreshments were served, then all enjoyed themselves by singing and dancing.

MORE MEN IS WANTED

Every coke worker in Connellsville region is employed. And an appeal for 1000 more men has been issued. Employees on the Pennsylvania railroad are working time and a half. Prosperity has returned despite the pre-election arguments of the Bryanites.

Ten glass plants in Pennsylvania, Ohio, West Virginia, Maryland and Indiana will be put in operation within two weeks, are the prosperity features.

The railroad men are working over time repairing rolling stock, and the work on the new model town, where a \$15,000,000 steel plant will be erected, was ordered by the Jones and Laughlin Steel company.

The glass plants to be opened within two weeks are the property of the National Glass company, and the bondholders will endeavor to purchase the plants.

While the firm owned glass plants, they did not operate them, leasing them to underlying concerns. The company has outstanding bonds of \$25,000,000, of which \$600,000 are first mortgage and the rest general.

Three of the plants are up-to-date and ready for immediate operation.

VISIT YOUR SCHOOLS

How many of our school children's parents ever visit the schools or even know the teachers when they meet them on the street? How many know what their children are studying, or how they are progressing? Is there any of you who have a building to make or a fence to build; a dress to make; a house to paint, or whatever the job may be, that say to the one you have employed: "Here are the tools and material, go ahead and do it to suit yourself, and it will suit me." Is not that what many of you are doing with your children? You say by your actions: "Here is my child, with its books, paper and pencil; I've furnished material and tools, educate him as you like." Now we hear some of you say: "The teacher knows better what they ought to study than I do." While that may be is part true, the carpenter or a dress-maker, or a painter, knows better how to do the work than you do, yet you do not leave it all to them. On the rising generation depends the welfare of this great nation. Patrons and parents, take more interest in our schools and visit them often, and by your presence give the teachers more encouragement; ask them how your children are doing. Perhaps a few minutes talk with them will save trouble that years to come can never undo. Think about this and ask yourself if you are doing right.
