SOMETHING ABC IN TYPEWRITERS

Why do so many people pay \$100.00
for a typewriter when they can get
one just as good for at out \$50.00?

We are agents for the GRADY RE-
BUILT TYPEWRITERS and can fur-
nish our customers with almost any
machine they want. These are not
second-hand machines but re-built.
Webster defines the word "re-built"—
"to build again"—and "repaired" as
"mended".

These machines are sent to the
Grady factory and every movable part
is taken off and sold as junk, including
the type bars. All bearings are re-
placed with new, the machine is re-
enameled and re-nickled and few of
the most expert can detect the differ-
ence. Many of the rebuilt machines
are equipped with the latest improve-
ments and are guaranteed to do first-
class work.

Go over these prices and see whether
you can do better. Remington, models
6 and 7, price \$48 to \$60. No. 2 Rem-
ington, \$30. Each No. 2 Remington is
equipped with two color ribbon per-
mitting you to write in two colors.
Smith Premier, No. 1, \$35; No. 2, \$45
to \$60. Oliver No. 3, \$50. Underwood
No. 1 and 2, \$55 to \$75. We have the
Monarch, Fox, Fox Visible, Densmore,
Fay Sholes, New Century, Elkens-
derfer. The machines range in price
from \$20 to \$75, just as good as new
with a better guarantee.

Take one on three months trial and
if not satisfactory all we ask is a
small monthly rental for the use of the
machine which will be applied on any
other machine you may select.

Bring out the dignity of your busi-
ness by using a typewriter, it is the
modern way. How many letters do
you receive from a business house not
written on a typewriter? If you re-
ceive a letter from your wholesaler
written in long hand the thought
strikes you that he is not progressive
and unsafe to deal with. That his
goods are of an inferior grade and his
price may be too high. If he does
not use a typewriter he is not modern
and his goods must evidently be out of
date.

A Healing Salve for Burns, Chapped
Hands and Sore Nipples.

As a healing salve for burns, sores
sore nipples and chapped hands Cham-
berlain's Salve is most excellent. It
alays the pain of a burn almost in-
stantly, and unless the injury is very
severe, heals the parts without leaving
a scar. Price, 25 cents. For sale by

A Beautiful Picture

Did you ever notice how really beau-
tiful gum chewing makes a girl ap-
pear? Take her de facto, and gazing
steadily, one cannot find a more ideal
picture. With a sharp click! clack!
her teeth, so white and pearly are
clashing together as with cowish glee,
she masticates her cud. Then, too,
one can note her health tinted, well-
rounded cheeks as they grow a little
more rotund, through the material as-
sistance of a big "hunk" of gum.
And really, who can imagine a fairer
spectacle than that of her dainty up-
turned nose, as it gently rises and falls
in wave-like undulations over the abys-
mal depths revealed at each pressure
against the mass? Oh, how deliciously
tempting that rosebud mouth is as
the maiden fills it with a soft, pliable
chunk, and champing like a festive
goat reveling in the luxuries of the
succulent tomato can, she greets you
in tones husky with gum.

Happy Homes

A woman may do her level best to
make a happy home for her husband
and children but if she is treated as
a slave and only given her board and
clothing in payment for her services
as mother, wife, cook, laundress,
nurse-girl, chambermaid and seam-
stress, is it any wonder that little or
no happiness exists in that home? If
a mother spoils her son by pampering
and waiting on him all the years of
his childhood and boyhood, and mak-
ing him think that a man should al-
ways be waited on by the woman of
his household, is it strange that he
expects a wife to do the same and
that, in all likelihood, she either wears
out in a few years such service, or
else become bitter and dishartened?
There are very many reasons why a
home may not be found a happy one
and the happiness found therein de-
pends fully as much on the husband
as it does upon the wife. We are
often told that in every true and ideal
marriage both husband and wife must
learn to bear and forbear. In every
home where happiness exists there
must be perfect trust, confidence and
love between the husband and wife.
There are two kinds of sunshine in
the world, and both quite necessary—

the one which is caused the sun's
shining outdoors, and the other by its
shining in our hearts. Happy homes
abound in the heart sunshine, and
whether it shines without or not, there
is naught but brightness within doors.
It is the loving deeds, the cheery,
helpful words, and the kindly thought-
fulness, that each member of the fam-
ily shows toward the others that mak-
es an ideal, happy home—a perfect
heaven on earth. How many of us do
our share in making such a home that
shall be a haven of rest to all who may
come within its influence.

LARGE ATTEND- ANCE ASSURED

Many prominent speakers will be
present at the Conservation meeting to
be held at Walla Walla, Washing-
ton, May 13-14. Acceptance are com-
ing in every day from invitations sent
out by the Commercial Club. Expres-
sions of enthusiasm accompany each ac-
ceptance. The success of the meeting
is assured. Now that the railroads
have granted special rates to Walla
Walla for all those desiring to attend
the Conservation meet, an assembly of
between five hundred and one thousand
people is looked for. Further invita-
tions and programs will be in the
mail in a few days. Several thousand
invitations and programs will be sent
out.

The residents of Walla Walla are
looking forward to the meeting and
are preparing to give those attending
a hearty welcome and a grand time.

EAGLE VALLEY'S VISION SEES A RAILROAD AGAIN

RICHLAND, Or., April 16—Because
of the continued delay in building the
railroad that has long been planned to
run from Baker City to Eagle Valley,
most people believe this road will not
be in the near future, if ever, be com-
pleted to its intended destination; but
it has been given out by good author-
ity that the completion of the road to
the valley is assured, and that construc-
tion will continue uninterruptedly till
this point is reached. During the last

few weeks a census of the present
production of the valley was taken for
the railroad company by a man who
questioned each landowner to give the
actual figures, showing exactly what
his farm was yielding. On Powder
River, between Baker City and Eagle
Valley, the railroad company has se-
cured a large reservoir site at Thief
Valley, from which it intends to irri-
gate 50,000 acres of land held under
the Cary act. This tract lies along
Powder River, where three crops of al-
falfa are raised annually by irrigation
on the lowlands in the river bottom.
In addition, the company is said to
have control of a large belt of timber
on Eagle Creek and in the Sanger dis-
trict. The Granite Mountains, in
which this timber is found, is also a
well-known mining district. The road
is now in construction from Baker, but
many of its plans are kept secret for
the present.

MADDEST FREAK OF ELECTRICITY

One of the most puzzling and extra-
ordinary of the many deadly freaks for
which electricity has been responsible,
was that perpetrated by it in Vienna
a short while ago. A fire was in pro-
gress in an electrically lighted ware-
house, and one of the firemen was
playing the hose upon an upper floor.
Suddenly without a moment's warn-
ing he shrieked, gasped and fell back
dead.

At first it was thought that he had
died of heart-disease. But a postmor-
tem showed that that organ—as well
as all the others—was perfectly heal-
thy.

Eventually it was discovered that
the steam of water from the hose-
nozzle had struck a broken arc-light
wire, and had conducted the current
down through the body of the unfor-
tunate man, killing him instantly.

FUNNY OLD ENGINE TO BE SEEN AT A. Y. P.

EVERETT, WASH., April 20.—Le-
comotive No. 1, a diminutive wood
burner with an enormous bell mouthed
smokestack, which hauled the first
train over what is now known as the
Hill railway system, has been brought
to the shops here for an overhauling,
preparatory to being taken to the
Alaska-Yukon-Pacific exposition as a
part of the railroad exhibit. The en-
gine looks like a mere toy beside No.
1903, the ponderous mogul, and the
electric locomotive, which will also
form parts of the exhibits.

Object to Strong Medicines.

Many people object to taking the
strong medicines usually prescribed by
physicians for rheumatism. There is
no need of internal treatment in any
case of muscular or chronic rheuma-
tism, and more than nine out of every
ten cases of the disease are of one or
the other of these varieties. When
there is no fever and little (if any)
swelling, you may know that it is only
necessary to apply Chamberlain's Lin-
iment freely to get quick relief. Try
it. For sale by City Drug Store.
