SOMETHING ABOUT TYPEWRITERS

Why do so many people pay \$100.00 for a typewriter when they can get one just as good for about \$50.00? We are agents for the GRADY REBUILT TYPEWRITERS and can furnish our customers with almost any machine they want. These are not second-hand machines but re-built. Webster defines the word "re-built"—"to build again"—and "repaired" as "mended".

These machines are sent to the Grady factory and every movable part is taken off and sold as junk, including the type bars. All bearings are replaced with new, the machine is re-named and re-nickled and few of the most expert can detect the difference. Many of the rebuilt machines are equipped with the latest improvements and are guaranteed to do first-class work.

Go over these prices and see whether you can do better. Remington, models 6 and 7, price \$48 to \$60. No. 2 Remington, \$30. Each No. 2 Remington is equipped with two color ribbon permitting you to write in two colors. Smith Premier, No. 1, \$35; No. 2, \$45 to \$60. Oliver No. 3, \$50. Underwood No. 1 and 2, \$55 to \$75. We have the Monarch, Fox, Fox Visible, Densmore, Fay Sholes, New Century, Blickensderfer. The machines range in price from \$20 to \$75, just as good as new with a better guarantee.

Take one on three months trial and if not satisfactory all we ask is a small monthly rental for the use of the machine which will be applied on any other machine you may select.

Bring out the dignity of your business by using a typewriter, it is the modern way. How many letters do you receive from a business house not written on a typewriter? If you receive a letter from your wholesaler written in long hand the thought strikes you that he is not progressive and unsafe to deal with. That his goods are of an inferior grade and his price may be too high. If he does not use a typewriter he is not modern and his goods must evidently be out of date.

INTRODUCTORY

Having purchased the interest of J. B. Barnes in the newspaper and job printing plant known as the Jacksonville Post we take the present opportunity to inform our readers that all connection of Mr. Barnes with the editorial or business management of the paper has ceased.

We expected our predecessor to remain with us a few days until we had become acquainted with the citizens of the city at least, but on our arrival last Saturday we found he had been called away suddenly on account of the illness of his wife so we are compelled to make our introductory bow to our readers in our own awkward way.

The editor and family come from Oakville, Wash., having resided there 13 years, he was owner and editor of a newspaper in that town during 4 years of this time and has just disposed of the same, we were attracted to this place by the appearance of the country and by the climatic conditions which are quite different from those we had been accustomed to. We come to Jacksonville expecting to make our home here and the interests of the town will be sacred as our own private affairs. It is too early to say much in regard to the policy of the paper farther than that we will always endeavor to advance the moral, educational, social and financial interests of the town and county to the best of our ability.

We met with some surprises in business matters since arriving in town but believe that everything will be adjusted satisfactorily to all concerned. We ask the hearty co-operation of all of our readers in making The Post the best newspaper in Jackson County.
 D. W. Bagshaw.

It is definitely announced that the railroad to Klamath Falls will be complete and in operation by May 15. The Southern Pacific has offered to cooperate with the citizens of the town and vicinity in getting up a monster celebration in honor of the event. It will certainly mark the commencement of a new era for Klamath Co.

Harvey W. Scott, the editor of the Portland Oregonian who had been tendered the ambassadorship to Mexico by President Taft has declined the honor. It seems there are some things which even an editor will not take.

Our readers are one and all invited to call at this office and get acquainted with the editor, our latch string is always out.

Urging Annexation

Congressman Hale of Tennessee has introduced a resolution in the House of Representatives to the effect that Cuba be invited to vote upon the subject of annexation. It is singular that a Congressman should so waste his time.

There are many people who have no doubt that ultimately annexation will come; but in the good and proper time, and upon the initiative of the Cuban people. American capital that is backing Cuban enterprise would be glad if the day of annexation were to come soon; but the Cuban himself is in no hurry; if indeed he regards with any degree of favor the ultimate transfer of his allegiance to the United States.

As between international neighbors such suggestion as that proposed by Congressman Hale smacks of discourtesy. If we have our suspicions that Cuba will not be able to succeed in her present attempt at selfgovernment any better than she has done before, it is not nice to be bruited them about in such a manner. We might at least afford to be polite and await the issue which seems to be inevitable.—Portland Telegram.

Lots of Autos

A Medford lady visiting recently with friends in Dunsmuir, Cal., was asked if there were any automobiles in Medford, and in turn the Medford lady asked her Dunsmuir friend to guess how many there were, and six was the number named. When the Medford lady said there were fully 150 of the buzz cars here, an Ananias club was promptly organized and the Medford lady was elected its most exalted high prevaricator. For the benefit of those Dunsmuir people, The Morning Mail is going to state that it honestly believes there are more than 140 automobiles owned and driven by Medford residents.—Medford Mail.

Of Interest to Women.

The Nebraska house of representatives at the present session have passed an act known as the Howard bill, providing for a constitutional amendment allowing women to vote at all elections in that state.

Out of 42 members of the council of Copenhagen recently elected, seven are women.

This paper wants correspondents in the country districts. If there is no correspondent in your vicinity, send in any news item you may have, accompanied by your name, not necessarily for publication but as a guarantee of good faith and when in town call and see us.

The excellent work performed by the wireless telegraph station at Fort Worden on Puget Sound, is made the subject of a report from the chief officer of the army at that station. The station at times communicates with San Francisco and it has no difficulty at night in exchanging messages with the station at Cape Blanco, 325 miles distant and with Table Bluff, California, 525 miles distant. Constant communication is maintained with stations within a radius of from 250 to 300 miles.—Ex.
