Cleaning House

A campaign of investigation which started during the recent legislative session is now expected to include almost every state official at the Capital of our sister state, Washington.

The investigation of the Insurance department has already caused the resignation of S. H. Nichols, Secretary of State and it is evident that Schively, the Insurance Commissioner would gladly follow his example if circumstances allowed.

Gen. Otis Hamilton is stated to be short \$25,000 in his accounts while Adjutant General, and former Governor Mead may be asked to explain why he O.K'd Hamilton's vouchers without ascertaining the facts in the case.

Several other prominent persons are named as possible subjects for the investigation committee.

The "cleaning up" process reveals a system of deception and graft which has been in operation for several years whereby certain officials have fattened at the expense of an unsuspecting public.

The state of Washington is to be congratulated upon having for chief executive a man like Gov. Hay, who has the courage to come out flat footed for a clean administration.

The armored cruiser New York, which was put into commission at Boston Monday will be dispatched as an addition to the fleet now in Turkish waters.

A man like Andrew Carnegie cannot always be judged by the words which come out of his mouth, he wants to die poor but objects to paying his income tax.

A Chicago minister in a sermon recently delivered says: "The large hats now worn by the ladies are signs of evil times in the land." He must be an old foggy anyway.

Sherlock Holmes is "left a thousand miles" in matters of identification by a poultry fancier of Portland who declared on his oath that he could identify any chicken he had seen three or four times, by the expression on its face. This man will no doubt prove a valuable asset to the police department of the Rose City.

The Andrews' ranch on the Central Point road was sold Tuesday to A. N. Wright of Minnesota. The consideration was \$6500. This is a fine tract of valley land comprising 17 acres on the south of wagon road running to Central Point.

TO MEET AT PORTLAND

PRESBYTERIANS PREPARE FOR GREAT BROTHERHOOD CONVENTION

Speakers to Be of National Reputation Many Delegates Are Expected.

There will be a great convention of the Presbyterian Brotherhood in Portland June 3 and 9 1909. All the Presbyterian churches of Oregon are being asked to send delegates, and it is expected that these will number several hundred. The principal speakers will be men of national reputation, who will come to the coast following the meeting of the General Assembly at Denver in May.

The Portland meeting is but one of four to be held on the coast, the places and dates being as follows: San Francisco, June 3 and 4; Portland, June 8 and 9; Seattle, June 10 and 11, and Spokane, July 14 and 15.

The Presbyterian Brotherhood has made great strides since its organization a few years ago, as the thousands who attend its conventions testify. The Pittsburg gathering filled to overflowing the auditorium, which seated 5,000. Only men are admitted to the meetings.

It is expected that a great impetus to Presbyterian church work as well as the Brotherhood movement will come as a result of the conventions on the coast.

The Promotion Committee has opened headquarters at Room 415, Worcester Building, Portland, and have begun the work of advertising the meetings on an extensive scale.

HONOLULU'S POSITION RECOGNIZED

Honolulu will be the third city in the United States to be equipped with one of the new Weather Bureau kiosks, or street observation stands. The first was erected a short time ago in Washington, and a second in San Diego.

Honolulu heard of the California cities being favored, and went after one for herself, with the result that Weather Bureau Director Moore has advised the local weather bureau office that one is to be sent here, and asking that a site be selected for it. These kiosks are ornamental structures about four feet square and some seven or eight feet high, in which a full set of self recording meteorological instruments are open to view, protected behind glass. They are designed to be placed on some public thoroughfare.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by City Drug Store.

Porto Rico in Trouble

President Taft asks Congress to Curtail Powers of Assembly.

President Taft on Monday sent a special message to Congress recommending amendments to the Foraker act under which Porto Rico is governed. The President directs the attention of Congress to affairs on the island, referring to the failure of the Assembly to pass the appropriation bills as "a situation of unusual gravity, and after reviewing the acts of the Legislative Assembly and Executive Council in full, he concluded as follows:

"When we, with the consent of the people of Porto Rico, assumed guardianship, over them and the guidance of their destinies, we must have been conscious that a people that had enjoyed so little opportunity for education could not be expected safely for themselves to exercise the full power of self-government, and the present development is only an indication that we have gone somewhat too fast in the extension of political power to them for their own good. "The change recommended may not immediately convince those contending the House of Delegates of the mistake they have made in the extremity to which they have been willing to resort for political purposes, but in the long run it will secure more careful and responsible exercise of the power they have." There is not the slightest evidence that there has been on the part of the Government or any member of the Executive Council a disposition to usurp authority or to withhold appro-

val of such legislation as was for the best interests of the island or lack of sympathy with the best aspirations of the Porto Rican people."

Development in The Country

Signs and news of development are large and significant now in the country districts as well as in the cities of Oregon. Almost daily there are reports in The Journal of sales of large tracts of land, and in most cases they are to be subdivided and devoted to fruit raising or intensive farming by many or several families where but one dwells now. Even in cases where large tracts are to be kept intact the purpose is to put them to far better and more profitable use, and to cultivate them scientifically and in accordance with modern knowledge and progressive ideas. The states papers generally tell every week of many sales of farms to newcomers, who in most cases are people that will develop them make the most of them, and increase their products from two to ten fold.—Oregon Journal.

Coos Bay Railroad

Citizens of Marshfield are organizing a company with a capital stock of \$25,000 for the purpose of securing right of way and making a survey for a railroad from Coos Bay to Roseburg and to secure terminals in the two cities.

The plan is to sell certificates in denominations of \$10 up to citizens of Coos Bay and Roseburg.

The cost of the proposed survey is estimated at \$25,000 most of which it is stated has been already subscribed and as soon as the full amount is raised the surveyors will be put on the route and right of way agents sent out.

The people at the Bay are very enthusiastic over the proposition and expect very little opposition to securing the right of way and terminal facilities in the two cities.

COUNTY TREASURER'S TWENTIETH CALL

State of Oregon, County of Jackson, Treasury Department.

Jacksonville, Oregon, May 15, 1909. Notice is hereby given that there are funds on hand for the redemption of all County Warrants protested from March 1st, 1908 to May 31st, 1908 both dates inclusive. Interest ceases on all above called Warrants, the date of first publication of this notice, which is May 15th, 1909.

Jas. M. Cronmiller, Treasurer of Jackson County, Oregon.

A month of cloudless spring weather in Oregon, with only a touch of frost at night to remind us of winter causes us to look with commiseration upon our friends in the Mississippi Valley who within a week have been swept by a freezing wave of destruction, on the first day of May even in the fruit sections of Kansas there was a report of ice three quarters of an inch thick and the calamitous visitation extended far into the Southwest—the coldest May weather since the establishment of the weather bureau. It would seem that we of Southern Oregon have small reason to complain.—Ex.
