

THE HAWAIIAN BUILDING, A.-Y.-P. EXPOSITION, SEATTLE.

The building erected at the Alaska-Yukon-Pacific Exposition for the exclusive use of the Hawaiian Islands, occupies a prominent position on the Court of Honor next the central government structure.

Hawaii has prepared a more extensive and comprehensive exhibit of its marvelous resources than for any other world's fair. It will show all of its native fruits and vegetables; will offer an aquarium of live fish, and in various other ways interest the fair visitors.

### Cattle Eat Lye

M. P. Ensele, who resides on the Applegate road West of town, called at this office Monday, and stated that he wished to correct certain reports in regard to the loss of some cattle, reported to have been poisoned, the following being the facts in the case, viz: The cattle were out at pasture and when found Thursday evening were lying near the spring on the Pat Ryan Flat, dead.

Mr. Ensele removed part of the stomach and the tongue of one of the animals for examination by a veterinary surgeon who promptly pronounced it as his opinion that lye had been the cause of the animals' death, that after swallowing sufficient lye to burn the tongue and stomach as shown by the sample the animal would not travel far but would quickly succumb.

Mr. Ensele is utterly at a loss to understand how or where the cattle obtained the lye, but desires us to state that he does not suspect anyone of intentionally poisoning his stock. The cattle, four in number, were valuable, one being a specially fine Jersey cow.
