ACCIDENT IN MINE

W. J. Leever crushed by falling rock--Dies Tuesday evening--Victim was a recent arrival

A fatal accident, resulting in the death of W. H. Leever occurred at the Opp mine near this place, Tuesday afternoon.

A blast had been fired in one of the tunnels and the men returned to work in their usual places when suddenly a portion of the rock overhead which had doubtless been loosened by the blast, fell striking Mr. Leever on the head, crushing the skull, breaking one arm and inflicting other injuries any one of which would no doubt have been fatal. Fellow workmen rushed to his aid removing the rocks, only to find him hopelessly crushed.

Medical aid was summoned and every possible attention was given the unfortunate man, but to no avail, after a few hours suffering he died Tuesday evening about half past nine o'clock.

Leever was a recent arrival in this place and leaves a wife and two children to mourn his sad demise.

NOTICE

The parties who picked up my crowbars on the road west of Jacksonville had better return them at once and save trouble. The parties who took the bar Monday August 23, are known to me and will be arrested unless the bar is returned immediately. The crowbars were not lost and if the parties taking them away thought they were finding something lost, they were badly mistaken. B. E. HANEY.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by City Drug Store.

GOLD HILL GOLD MINES

Gray Eagle makes a good showing--Black Hawk is installing machinery--Lucky Bart will resume operations soon

The Gray Eagle mine on Sardine creek, now being operated by the Gold Hill--Oregon Mining Co., composed of Portland capitalists is now showing some of the best values of any mine in this district, and better than have been shown for several years. Superintendent Ebner has opened the mine 70 feet below the first tunnel and has struck a body of ore which shows values running from \$6 to over \$300 per ton. A ten stamp mill is now on the way to the property, the mill having been started thither after the main stockholders and directors of the company had examined the ground carefully and fully verified the reports of the superintendent.

The editor of the News has taken occasion to interview a number of practical miners here who are well acquainted with the property and several of whom have worked upon it, and they all unite in saying that if there are any mines in this country--and it is easily demonstrated that the mines are here--that the Gray Eagle is one of them.

In the workings opened under Mr. Ebner's management a thirteen foot vein has been found so far and still the foot wall has not been reached. The vein prospects evenly with the exception of a rich streak, which produces the \$300 ore. From tests made the ore is capable of being treated by the cyanide process, and it is probable that a cyanide plant will be installed there.

The Gray Eagle is not the only mine in the Sardine creek district that is attracting attention. The Blackhawk on Drummond Gulch, now being operated by the Gold Age Mining Co. while only development work has been done so far have shown up so well that the owners have incorporated and have done a great deal of road building, etc., looking toward a fuller exploitation of the property. They have ore enough in sight now, is claimed, to pay for the mine at the rate the rock assays. The Golden Age people are figuring upon installing machinery for the reduction of the ore and the mining business in the Sardine creek country looks good.

J. H. Beeman is having work done on the Lucky Bart group of claims and from inside information were assured that active operations will be commenced there soon within the next few weeks. The Lucky Bart has all the equipments of a mine from machinery to ore, if you want to take it that way, or you can take it from ore to machinery, it has produced many thousand dollars and there are many more to be taken out. The man with the hammer may tell you there are no mines in the Gold Hill district but just dodge that hammer and watch us for the next few months.--News.

Goldberg correspondence of the Lakeview Examiner: Eastern men were in here last week looking over the resources of Lake county lands, and while in this section paid a visit to the mines. They were well pleased and said they would return and become interested both in land and mines.

Waldport correspondence of Newport Mail: The telephone situation has done irreparable damage to the Waldport community. With communications entirely shut off we are unable to send any message faster than the United States mail. The situation was considerably aggravated when some miscreant cut the wires and left them hanging in the slough.

L. G. Linneville, 71 years old, narates the Lakeview Examiner, last spring rented seven acres of land at Adel and planted it all with his own hands to potatoes and garden vegetables. He has taken care of the place unassisted and says that he will have more than \$1000 clear profit for his season's work. He has bargained for 10 acres of land adjoining Lakeview, paying \$125 an acre, and says that he can make a living off of it and at the same time be growing an orchard that in five years will be worth from \$500 to \$1000 an acre.--Journal.

PORTLAND LETTER

President Taft coming Oct. 2--Wm. E. Curtis of the Chicago Record-Herald says Portland is best city on coast--Delegation of Japanese business men here Sept 6

Portland, Or., Aug. 25(Special) President Taft will be made the center of a big demonstration when he comes to Portland October 2. There will be no private entertaining for the President, but he will be on view by the public throughout his visit. There will be a big parade in the President's honor, in which he will ride, and where he may be seen by the thousands who will want to have a look at the nation's executive. President Taft will be asked to make an address at the Armory in the afternoon and attend a banquet at the Commercial Club at night on Oct. 2d. Plans for Sunday, which will be spent here, are not made up yet, but the President will probably attend church and spend the remainder of the day resting. Mayor Simon has named a prominent committee of Portland people to arrange the President's entertainment.

On a tour of the Northwest to get material for a series of letters to his paper the Chicago Record-Herald, William E. Curtis, probably the best known correspondent in the world, was a Portland visitor during the past week. In discussing the Rose City, he said: "Portland is the city on the Pacific Coast and I would rather live here than in any other city of which I know. Portland is more mature than any of the big cities of the West." These are strong words, coming as they do from a man who has travelled all over the world.

An event of great interest, especially to the Pacific Coast, will be the visit of 30 of the leading business men of Japan, who will arrive on September 6 for a tour of 50 cities of the country. The visitors are coming to learn of the resources and commercial methods of the United States. The trip about the country will be made in a splendidly equipped special train at a cost of \$75,000 contributed by the business interests of the United States. A committee of prominent men has been named to have charge of the visitors while in Portland and arrange for their entertainment here.

CRYING FOR HELP.

Lots of it in Jacksonville But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed.

Not one so important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the first indications of kidney trouble.

It is the kidney's cry for help. Heed it.

Doan's Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease.

Read the proof from a Jacksonville citizen.

A. D. Houston, Merchant, formerly living in the North, part of Jacksonville, Ore., says: "About a year ago I suffered severely from backache and kidney disease. The action of the kidney secretions was very irregular and I was otherwise run down. I procured Doan's Kidney Pills at the City Drug Store and since using this remedy I have not had the slightest symptom of kidney trouble and have felt better in every way. I am glad to endorse a remedy of such great merit as Doan's Kidney Pills."

Plenty more proof like this from Jacksonville people. Call at The City drug store and ask what customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, Sole Agents for the United States.
