THINK OF IT

The following article from the Portland Journal is timely and worthy of consideration by the voters of Oregon. Do you want men in Congress who will stand for the needs of the west, or those who blindly follow an eastern lead? The article is as follows:

"The eastern part of the country, a Washington dispatch states, will oppose in congress the proposition to issue bonds, as favored by President Taft, to carry on reclamation work in the west. It is also stated that Speaker Cannon will lead this opposition in congress, and do everything he can to defeat aid to the reclamation of arid lands.

This is scarcely in the nature of news; but it is something worthy of some western thought—and action. Next year Oregon will elect members of the house. The two present members will be up for re-election. They are or have been unwavering followers of Cannon. To be so still they must stand against the west, and Oregon in particular, on this immensely important matter. Wouldn't we better elect men who will defy Cannon and who will have the courage and patriotism to stand up for Oregon and the west; for reclamation, open rivers and development?"

Make up your mind that whatever you may have done in the past you will in the future wear your clouds "inside out and show the lining." We all have clouds, but that is no reason why we should draw the attention of the world to them. It is the brave, cheerful soldiers who inspire the others. So if you can't get what you like, determine to like what you have or at all events to make the best of it and go on your way bravely, without complaining.

A boy who calls his mother the "old woman," or his father "the governor," is building upon the sand. Do you want to be a power among men? To be a leader? Learn to control your temper, to master yourself. A boy who does not control his tongue and his temper will never become a master of men. Do not imitate the vices of fast young men, thinking it will make you manly.

The man who gets mad at what the newspaper says about him should return thanks three times a day for what the newspaper knew about him and suppressed.—Ex.

FOR BETTER ROADS.

The Mail Tribune in a recent editorial article touches up the subject of good roads, made by the Portland Oregonian and commenting warmly thereon, to which comments all thinking readers will devoutly say "Amen".

If there is any one subject in which the residents and property owners of a district, county, or state should manifest a lively and abiding interest, it is the question of good roads. There is no investment which will yield better returns than money invested in building good roads, the increase in value of lands contiguous to the road will in every instance amount to many times the cost of building the road to say nothing of the convenience, the ease of travel and lessened cost of transportation and travel.

Football for this season has been styled a "game of simplicity." It is, you either get your head broken or you don't.

Farmers would do well to attend that farmer's course at the Oregon Agricultural college this winter.

Another flood is predicted. Then there will be still another, maybe; such things usually run in triplets.

The next time Uncle Sam has to go down to Cuba to preserve peace he will probably stay there, and should.

Walter Wellman is probably prejudiced, but he seems to make out a pretty strong case against Dr. Cook.

If over half the Republicans of Oregon are against a machine convention, how can a machine convention's ticket win?—Journal.
