A Common Cold.

We claim that if catching cold could be avoided, some of the most dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia diphtheria and scarlet fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not find lodgment. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor the development of the germs of these diseases. That is why this remedy has proved so universally successful in pneumonia. It not only cures your cold quickly, but minimizes the risk of contracting these dangerous diseases. For sale by City Drug Store.

Mrs. F. W. Carnahan passed through this city Monday, enroute to the Blue Ledge mine.

Several needed improvements are being made at the court house, one deserving special mention is the fitting up of an office for the circuit judge. The room selected is on the second floor the woodwork has been finished in white enamel, giving it a bright and cheerful appearance. The room on first floor formerly occupied by Judge Hanna, will be fitted up for the Recorder, and the Treasurer will be moved into the room now used by the Recorder.

About twenty members of the I. O. O. F. lodge at this place left Saturday afternoon for Woodville to assist in the institution of a new lodge of the order at that place. Among those going from this place were: John Norris, Jas. Young, C. H. Basye, F. M. Roundtree, M. Hege, Chris Ulrich, Mr. Abbott, P. K. Nelson, Jas. Rock, and Chas. Dunford. They returned Sunday morning and report having had a splendid time. The team from this lodge put on the initiatory, Gold Hill the first, Medford the second, and Grants Pass the third degree.

A Beautiful Woman

Must have a beautiful skin. Dr. Bell's Antiseptic Salve removes pimples, black heads, chaps, and roughness, leaving the skin smooth. Try it on our guarantee. For sale by City Drug Store.

ESTRAY NOTICE

Buncom, Oregon, Jan. 23, 1910. Came to my place two years ago:—One dirty gray horse, about 14 1/2 hands high, weighs between 900 and 1000 lbs. No brand or marks, the horse will be four years old this spring.

The owner is hereby notified to come forward, prove property, pay charges, and take him away, otherwise he will be disposed of according to law. A. D. MCKEE. (First publication Feb 5, 1910.)

Light Sparks.

By our Associate Editor. Mr. Glavis is out of the Forest Service, but not out of the woods yet. Investigating the cost of living is getting to be a favorite amusement among Congressmen.

Editors of papers that have little to say of meat prices are probably "sawing wood," with a view to starting a food factory.

He is a poor spender who complains about the high cost of living when a prize hen can be bought for only \$12,000.

President Madriz, of Nicaragua, seems to be going down Zelaya-way.

Mr. Peter Devries, of Holland, has openly snubbed John D. Rockefeller, Crewe, crool man!

Mr. Depew, read Washington's Address in the Senate on February 22. The Senator wishes it distinctly understood, however, that if he can have his way about it, it will be by no means Mr. Depew's farewell address.

"Who raised the price of meat?" will have to take its place in the catalogue of unsolvable mysteries along with "What is a Democrat?"

Rubber shoes are more expensive today than they ever were before, and yet they contain less rubber. The only answer is that the rubber trusts needs the money, of course.

One of the articles in the Jeffries-Johnson agreement should stipulate that Prof. Johnson keep out of jail!

If there's anything in a name the Hon. Joe Tinker, of Chicago, ought to

Washington, D. C., Feb. 23, 1910. One of the most vociferous charges that Mr. Bryan used to make against the Republican party during his campaign was that it did not treat the big thieves and the little thieves alike.

This charge finds complete refutation in the fact that the Federal authorities have placed Millionaire Banker, John R. Walsh, of Chicago, in prison for five years for violating the Federal Banking laws. John R. Walsh is the wealthiest man that this Government has ever placed behind prison bars.

Recently Mr. Morse, another wealthy New York Banker, was sentenced to serve and is now serving a 15-year term in the Federal prison at Atlanta, Ga.

President Taft, in his prosecution of these big malefactors of great wealth, is demonstrating that the law is being administered alike to the rich and the poor. This will furnish a great object lesson to those who are engaged in dark and shady enterprises.

The opposition to the President's plan for the establishment of Postal Savings Banks is rapidly diminishing. It is well known that the great Banks of this country are opposed to the Gov-

ernment going into the banking business. It is well known that the great banking concerns of this country have in the past received favors at the hands of the Government and now President Taft proposes to make a banking move in the interest of the masses of the people which will be the effect of the establishment of Postal Savings Banks, that will enable the depositors, especially the working man and the farmer to secure 2 per cent interest on his money, and then to have the assurance that his money is as safe as the Government itself.

be given a place on the tariff commission. It may yet become necessary to take the Elkins-Aldrich dispute to the Hague. Secretary Ballinger speaks bitterly of the press. The only paper he can indorse is the esteemed Congressional Record, and even that at worthy publication has its faults. Speaker Cannon declares that he will never quit under fire. It has been previously demonstrated that he won't quit when there is no firing. So there he is. There is nothing in the progressive messages of Mr. Taft but what have popular backing. "A dollar today buys more than it is worth," says New York college professor, evidently strenuously surprised to find that a dollar buys anything at all. The way to be sure that you are not eating cold storage eggs is to eat French-fried potatoes. Dr. Wiley, the food expert, says if people abstain from eating meat it will change the dispositions of the entire nation within four or five million years. Ain't it awful, Mabel! Before the Ballinger-Pinchot investigation is ended, conservation of patience will be a vital issue, we suspect.

be given a place on the tariff commission. It may yet become necessary to take the Elkins-Aldrich dispute to the Hague. Secretary Ballinger speaks bitterly of the press. The only paper he can indorse is the esteemed Congressional Record, and even that at worthy publication has its faults. Speaker Cannon declares that he will never quit under fire. It has been previously demonstrated that he won't quit when there is no firing. So there he is. There is nothing in the progressive messages of Mr. Taft but what have popular backing. "A dollar today buys more than it is worth," says New York college professor, evidently strenuously surprised to find that a dollar buys anything at all. The way to be sure that you are not eating cold storage eggs is to eat French-fried potatoes. Dr. Wiley, the food expert, says if people abstain from eating meat it will change the dispositions of the entire nation within four or five million years. Ain't it awful, Mabel! Before the Ballinger-Pinchot investigation is ended, conservation of patience will be a vital issue, we suspect.
