

THE JUNIOR CLASS

of Medford High School

WILL PRESENT

THE DEACON

THE FAMOUS FIVE ACT COMEDY-DRAMA

At U. S. Opera House, Friday, March 18, 1910

With the Following Strong Cast

Deacon Thornton, ^(Mrs. Thornton's brother-in-law) with a passion for lemonade ^{with a stick in it} - Albert Rowell
 George Graef, Mrs. Thornton's nephew - Chas. Cooley
 George Darrah, alias Matt Wheeler - Ben Forbes
 James Reed, a friend of Darrah's - U. S. Collins
 Pedro, an organ grinder - Carl T. Hansen
 Parson Brownlow - Ray Compton
 Pete, Mrs. Thornton's servant - Alan Hazelrigg

Billy, the Deacon's boy - Clifford Polk
 Mrs. Thornton - Grace Mitchell
 Helen, her daughter - Dora Smock
 Miss Amelia Fawcett, Mrs. Thornton's maiden sister - Isole Ewbank
 Mrs. Darrah, George Darrah's wife - Mayme Swan
 Nellie, her child - Mayme Stevens
 Daisy, Mrs. Thornton's servant - Opal Daley

Admission 50 Cents

Children 25 Cents

LOCAL NEWS

Walker's Squirrel Poison. Best made. 30c per can.

Nunan-Taylor Co.

Get your legal blanks at this office.

B. F. Mulkey returned from Medford Monday evening.

H. K. Hanna Jr. returned from San Francisco, Wednesday.

Call at the Boss, for some of that delicious candy.

Miss Cora Baeye is reported seriously ill at her home in this city.

"The Deacon" at the U. S. Hall Mar. 18. See large ad in this paper.

The Boss has a fine line of fresh candies, fruit and nuts.

Insure your buildings in the Saint Paul Fire and Marine Insurance Co.

A. C. Hazelrigg and A. R. Rowell of Medford were over on business Tuesday evening.

Mrs. Miles Cantrall and son of Ruch were trading with our merchants Tuesday.

Jerry Nunan the merchant has returned from a business trip to San Francisco.

There is Only One Pine-Tar-Honey

That is Dr. Bell's. It is the original and can be relied on in croup, coughs, colds and all lung and bronchial troubles. Look for the bell on the bottle.

Mrs. A. E. Reames has returned from Hillsboro where she has been visiting her mother.

A reception was given for Rev. C. H. Johnston and family Wednesday night at the M. E. parsonage.

Mrs. Anna Bland of Grants Pass visited her mother Mrs. Augusta Helms the first of the week.

If you enjoy having a good laugh you will want to see The Deacon, at U. S. Hall, next Friday night. Popular prices.

Mrs. W. S. Jones and daughter Maude of Medford, visited Mr. and Mrs. B. M. Collins several days this week.

200,000 Tubes

Of Sutherland's Eagle Eye Salve were sold in 1895 and not one word of complaint, though every tube was sold under a positive guarantee. It is good for nothing but the eyes. Ask your Druggist.

Mrs. Ray Kelly and daughter of Hamilton, Wash., arrived Saturday to make her parents Mr. and Mrs. Arthur Thompson a visit.

A man named John Green was brought over from Ashland Wednesday and given

quarters in the county jail to answer at the next term of court to the charge of larceny.

Mrs. Emma Autenreith of Roseburg stopped a few days in Jacksonville this week to visit her sister Mrs. M. Armstrong while enroute home from a visit in San Francisco.

A reception in honor of the new Methodist minister, Rev. Johnston, was held at the parsonage Wednesday evening. A large number of persons, both old and young were present and an enjoyable evening was spent.

A Pleasant Physic.

When you want a pleasant physic give Chamberlain's Stomach and Liver Tablets a trial. They are mild and gentle in their action and always produce a pleasant cathartic effect. Call at the City Drug Store for free sample.

Edgar Younkin formerly of Los Angeles, but who recently bought an interest in the Pearce mine, was adjudged insane last week an attendant from Salem taking him there Saturday. Mr. Younkin's insanity is in a mild form and his friends hope for a speedy recovery.

The junior class of the Medford High School will present the famous comedy-drama "The Deacon" at the U. S. Hall in this city Friday, March 18. The cast of characters is specially strong and an evening of splendid enjoyment is assured. Don't miss it. Admission 50 and 25 cents.

Gives Prompt Relief

William H. Douglas Jr. of Washington D. C., says: I take great pleasure in informing you I have used Dr. Bell's Pine-Tar-Honey, and it gave me almost instant relief.

Next Saturday, March 19, has been designated by the W. C. T. U. as a national "Tag" day and the ladies of the society in the city will have a supply of tags for sale at 10 cents each. The proceeds are for furthering the temperance cause, the W. C. T. U. having undertaken to pay one-third of the campaign expense in this state. The number of tags which one person can buy is not limited, but buy at least one.

FOR SALE—S. C. White Leghorns, (295 strain.) Cockerels \$3 to \$5; pullets \$1.50; Eggs (15) \$2; day-old chicks \$1.50 dozen. Bull Orpingtons, Cockerels \$5; pullets \$2.50; eggs (15) \$3; day-old chicks \$3 dozen. Order chicks now. 1000 skunk skins wanted. I buy furs. W. T. GOODMAN, Box 412, Grants Pass, Oregon.

A Smooth Skin

Black Heads, Chaps, Pimples, Sores and all unhealthful conditions of the skin are unhealthful and detract from the looks. Buy a box of Dr. Bell's Anti-septic Salve, a creamy, snow white ointment, apply as directed and your skin will be as clear as a baby's. At all dealers in medicine.

Fruit Prospects of the Rogue River Valley.

[From The Rogue River Fruit Grower.]

There is every indication that Rogue River Valley will have this season a record crop of fruit, and that, barring mishaps, the shipments this year will be fully 800 cars, or double that of any previous year.

Of mishaps to cause loss to the fruit crop there are only five that are a serious menace to Rogue River orchards. These are late frosts in the spring, insufficient number of bees to secure the perfect pollination of blossoms and a full setting of fruit, pear blight, San Jose scale and the codlin moth. And no one of these possible disasters but what can be averted.

Late killing frosts in the spring are the exception and not the rule in Rogue River Valley, and these frosts only occur in a few sections of the valley floor where there is no air drainage. In these districts frost damage can be easily prevented by smudge fires.

The work of frost prevention last spring under the direction of Prof. O'Gara, of the Department of Agriculture, demonstrated that an orchard can be protected from frosts quite as easily as from pests and at a cost of from five to fifteen dollars an acre. Wind to make the smudge fires ineffective is not experienced here as in most of the Eastern fruit districts, and as to fall freezes they are not experienced in this valley.

A perfect pollination of blossoms and a full set of fruit can be had provided there is a swarm of bees to at least each three acres of orchard, the hives to be well distributed among the trees at the blooming period. But the efficiency of the bees work is dependent on the proper mixing in the orchard of

A Handsome Woman

Every woman may not be handsome, but every woman should keep with care the good points nature has given her. No woman need have sallow skin, dull eye, blotchy complexion, who pays proper attention to her health. Where constipation, liver derangements, blood impurities and other irregularities exist, good complexion, bright eyes and sprightly movements cannot exist. Internal derangements reveal themselves sooner or later on the surface. Headache, dark rings around the eyes, sallow skin, a constant tired feeling—mean that the liver and digestive organs are needing help and correction. Chamberlain's Stomach and Liver Tablets give this necessary help.

They work in nature's own way. They do not merely flush the bowels but tone up the liver and stomach to fulfill their proper functions. So mild and gentle do they act that one hardly realizes that they have taken medicine. Chamberlain's Tablets can be relied upon to relieve biliousness, indigestion, constipation and dizziness. Sold everywhere. Price 25 cents.

the right varieties of trees to give a cross-pollination that will ensure perfect fruit and that is true to type.

The danger from pear blight is now only a remote possibility, so thorough has the work of eradication been carried on by the fruit inspectors and the orchard owners under the direction of Prof. O'Gara, but this menace might become serious were there the least let-up in orchard patrolling, for should this spring be warm and humid and there be many rains during the early part of summer to force a heavy sap flow and rank wood growth, for despite the sharpest scrutiny of the inspectors and orchardists there is enough blight in unknown trees along the towns and in volunteer trees along fences, and in pastures and in wild fruit trees and shrubs, to cause a virtual outbreak of the pest that would annihilate the Rogue River pear orchards, as was the case in San Joaquin Valley when 600,000 trees were killed within two years and the pear industry wiped out in that section of California.

There was a considerable loss of apples and pears in Rogue River Valley last season from San Jose Scale. This was due to several causes. Owing to the small force of inspectors then employed by the county no general clean up could be enforced of scale-infested trees in town yards and farms and the eradication of the diseased volunteer and wild fruit trees. The spraying of many of the orchards was ineffective owing to the inferior quality of the brand of spray solution. There is a certainty that the loss from scaley fruit will be very small in the valley this season. The pest laws are being enforced with a vigor not before had and the owners of neglected trees are being forced to clean them up or cut them down; and as a further incentive to the owners of neglected trees to have them sprayed, the inspectors are serving notice that hereafter no scaley or otherwise diseased fruit will be allowed to be sold or even taken off the place. Profiting by their experience of the past, the fruit growers are more particular as to the brand of lime-sulphur spray they use and are using only a solution that will stand the hydrometer test and are buying largely of the Niagara brand, as that has given satisfaction.

The loss of apples and pears from codlin moth was unusually heavy in Rogue River valley this year, as it was all over the Pacific Coast. This was not due to faulty spraying or to inferior solution, for even in the best handled orchards and in which the leading brands of arsenate of lead were used the loss of fruit was considerable. This loss from wormy fruit was due to the spraying being rendered ineffective by the broods of codlin moth not appearing at the periods in which they usually come. The result was that the spraying

was done too early and too late, and the moth larvae were thus able to avoid the poison and to perforate the fruit and render it unsalable. Fruitgrowers are arranging to have breeding stations over the valley this season and, by noting the life history of the capitate moths, will be able to tell at what time spraying must be done to kill the larvae so soon as they have emerged from the eggs.

The prospects are thus encouraging for a full crop of fruit this year in Rogue River Valley. The pest and frost risks will be practically eliminated. The pollination problem will be solved by the orchardists having an ample number of bees to attend to that work. In this the bees will be aided perfect development of the fruit buds, that even now may be seen on the pear and apple trees. Prof. O'Gara has been for some time making microscopic examinations of buds and he finds that the pollen grains are unusually well developed, and allowing that other conditions are favorable every blossom should develop a fruit. The bud growth on the peaches, apricots, cherries, etc.; Prof. O'Gara finds is equally promising of a big yield of fruit. The grape prospect can not yet be foretold, but that fruit gives promise of the usual big yield for which the vineyards of Rogue River Valley are noted.

It is a safe prediction to make that so completely will the risks be minimized that hereafter in Rogue River Valley a normal yield of fruit will be certain for each season, and that fruit growers may expect a full crop each year in every decade, a possibility for profit in the fruit industry not likely to be equaled by very few other sections of the United States, and which is sure to make this valley a land of prosperity and contentment.

Dr. Bell's Anti-Pain

A sudden attack of Cholera Morbus is dangerous. Keep Dr. Bell's Anti-Pain at hand, a dose relieves almost instantly. It also cures Diarrhoea, Cramps, Flux and Bowel Complaints.

MINERS NOTICE—Notice of Location both Quartz and Placer, for sale at this office. JACKSONVILLE POST.

KILL THE COUGH AND CURE THE LUNGS
