Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for particulars free. F. J. CHENEY & Co., Toledo, Ohio Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

---JACKSONVILLE POST---

Official Paper of the City of Jacksonville, Oregon

A weekly newspaper published every Saturday at the county seat of Jackson County, Oregon. D. W. BAGSHAW, Editor.

Entered as second-class matter June 22, 1907, at the post office at Jacksonville, Oregon, under Act of Congress of March 3, 1879.

SATURDAY, MARCH 26, 1910

SUBSCRIPTION: One year by mail \$1.50. Advertising rates furnished on application.

With the installation of a better service on the R. R. V. Ry., promised as soon as the new car arrives, the hotels of this city will be able to accommodate the people who under present conditions are unable to secure accommodations at Medford. If reasonable fare is charged and an hourly service, with car starting promptly on schedule time, is instituted there will be dozens of people glad to secure sleeping rooms here rather than put up in the small crowded quarters available in that place.

We are in receipt of a copy of the speech delivered by Senator Bourne in the U. S. Senate, February 17, 1910, in regard to Senate Bill 6168, creating a government business methods commission.

The speech is worthy of a careful perusal. We quote one paragraph only:

"After all, the most important consideration is not the amount of money taken in by an individual or the Government, but the amount that is spent and the manner in which it is spent. The Government's money is the people's money, and the Government's business is the people's business. Certainly the people are entitled to know that their money is being expended according to the best known business methods and that not a dollar is needlessly wasted. In this matter, as well as in many others, the Government of the United States sets an example to its individual citizens. In this matter of improving the business methods of the Government and limiting extravagant appropriations the general public ought to give strong support to Congress, for this is good administration and for the benefit of the whole people. Viewing it from the standpoint of party policy, it is my judgment that good administration is the best politics, and, in fact, no other kind of politics should receive the approval or indorsement of any public official. But this, as is the case with many other reforms, passes out of the class of partisan politics and enters the realm of general national welfare."
