

PORTLAND LETTER

New Flour Mill at Portland ---S. P. Installs Motor Car--Record Prices for Cattle and Hogs.

Portland, Ore., March 31--(Special)--That James J. Hill will build an east and west line of railway across Central Oregon, from Ontario to Coos Bay, was stated on good authority during the past week. The projected line will connect with the Grand Trunk, the Hill road now being built up the Deschutes and with the Oregon Electric in the Willamette Valley, believed to be another Hill property. This will mean a gridiron of new railroads for Oregon during the coming few years that will bring about a development in this state never before approached. All Central Oregon needs is railroads; it has everything else but people and the railroads will bring them.

Portland will have another great flour mill soon. Balfour, Guthrie & Co., wheat and flour exporters, have completed plans for erecting a big mill at the foot of Tenth street on the Portland water front. It is expected to be ready for operations during the coming fall and will cost about \$250,000. Plans provide for a combined mill, been let. The mill will be reached by ocean steamers and by railroad tracks as well. It will be operated by electric motors and will be one of the most modern flour milling plants in the country. Its daily capacity will be about 1000 barrels of flour.

An interurban service that is designed to meet the needs of the cities of the state has just been announced by the Harriman lines. Beginning this week, gasoline motor cars will be put in service on the main line of the Southern Pacific between Ashland and Grants Pass and another on the Springfield branch between Albany and Springfield. Another car of the same type will be put on between Pendleton and Umatilla on the O. R. & N. within the coming week. These motor cars are designed to handle local business in the territory they cover and serve different communities much in the same way as interurban electric trains. They have been found very convenient wherever tried and will no doubt aid the development of the districts served to a great extent.

The great Northern Railway plans to run its crack limited train into Portland by June 1, using the Union Pacific and Northern Pacific tracks by virtue of the traffic agreement existing between the Hill and Harriman lines in the

Northwest. This will mean the inauguration of additional train service between Portland and Puget Sound points, as well as from this city to the East.

Cattle and hogs have made new records in the Portland livestock market during the past week. Hogs sold at the remarkable price of \$11.50 per 100 pounds, live weight, and steers of the best grade brought \$6.75 per 100 pounds, mutton also attained a record, a lot of good grade lambs going at \$12 a 100 pounds, an unusual price for any season.

Justice Brewer Dead.

The sudden death of Justice Brewer, the second death among the justices of the United States supreme court to occur since Taft became president, makes another vacancy on that pre-eminent bench for the president to fill, and there are likely to be others during his present term. Justice Moody has long been seriously if not hopelessly ill, and all the other members of the court are "well stricken in years." What type of men the president appoints, with respect to their leanings regarding public service corporations, taxation and legislation conferring privilege, may at this juncture be very important to the country.

The president's prerogative of the appointment of the justices of the supreme court, who hold office for life, is one of great power and importance. For the justices are after all but mortal, and in many cases are guided in their decisions somewhat by natural or acquired bias of mind or trend of sentiment. If President Taft should serve two terms, the full membership of the supreme court of nine justices may be of his appointment, and he may consequently be to some extent responsible for decisions of momentous import.

FUNDS SHORT.

Prominent Lodge Man Arrested on Account of Alleged Embezzlement.

A ripple of excitement was created in our usually placid city by the arrival of Deputy Sheriff Ulrich, having in charge, Adolf Schulz, who had been arrested on a charge of embezzlement of funds belonging to the local lodge of Redmen of which he was secretary. The alleged shortage is said to amount to about \$1100, which Schulz had in charge for the lodge and is said to have used for his own purposes. Since the arrest most of the alleged shortage has been made up and it is reported that no further prosecution will be had. Mr. Schulz was a well known resident of this place, having been manager of the Jacksonville Real Estate Co. for a considerable time, and was well known to most of our citizens. We understand that he was released from custody Tuesday evening.

CHANGES NAME

The Record at Central Point is Now Called the Globe.

Lynn Purdin, the new owner of the Central Point Record has changed the name of the publication to the Central Point Globe, giving as a reason for the change, his friendship for Editor Kaiser of the Valley Record at Ashland. Whatever the reason for the change may be, the new editor shows good judgment in trying to escape from all means of identification with the former publication.

Printers as a rule are a trifle superstitious about a change of name of the paper which they represent, but in this case we anticipate that the change will be beneficial. May the fame and influence of the new journal be as wide as denoted by the new title.

THE BALL GAME

Opening of the Season by the League was Easy Victory for Home Team--Score Jacksonville 15, Central Point 5.

The fans of Jacksonville are rejoiced, for the first ball game of the season resulted as usual in an over-whelming victory for Jacksonville. Central Point was out in force to cheer its home team to victory, but was forced to vent its emotion on the umpire as they saw their team go down to inevitable defeat. Among the Central Point rooters and conspicuous because of his fierce denunciations of the umpire and ignorance of baseball rules was W. C. Leever. One of our old baseball favorites Elmer Lester, umpired the game and gave general satisfaction to every one but Central Point delegation and we never knew them to be satisfied with anything when their team was losing anyway. And right here we would like to voice our opinion of the man who sits in the grand stand and abuses the umpire because of his decisions on balls and strikes. No man can see from the middle of the grand stand whether the umpire is right or wrong in his decisions and the chances are ten to one that he is right. The man who sits and abuses the umpire just because his team is being beaten is, to say the least, no sportsman. And we would like to say too, that Jacksonville never got so fair a deal in the umpiring at Central Point as Central Point got here yesterday. Our new pitcher, Coffman, did good work, and somehow the boys from the valley town just couldn't connect with his offerings. We have only one kick to make about Ike, and this is, that he doesn't give the infield enough exercise. Out of the 27 outs made by the Central Point side 19 of them were strikeouts. The Central Point boys made 10 errors. The score:

Notes of the Game.

McIntyre who played the third sack for the locals Sunday did not only show his skill in fielding, but also showed his ability with the willow, by touching Murry of Medford who pitched for the Pointers for four safe hits.

Coleman and Ennis of the High School, played classy ball Sunday for amateurs. Richard Gaskin, pleased the fans Sunday by his heavy slugging and fast fielding.

Captain Duncan played a star game at first.

Coffman did some great work for the locals, on the mound Sunday, laying down the first five men who faced. The boy is there beyond doubt and deserves all credit that is due him.

Manager Ulrich feels quite at home once more in right garden.

Curly Wilson, behind the bat was certainly great, being an almost impenetrable back stop. Part of his success is no doubt due to conversational powers, his constant flow of words acting upon most batters as a gentle soporific, or perhaps it was the mesmerism of his graceful gestures?

BEFORE STARTING

Four Census Enumerators at Medford Resign Jobs.

Because the U.S. only comes through with 3 cents for each person counted Census Enumerators McCown, Summerville, Eisenheart, and Miller have fired their commissions back at the old boy and decline to have anything to do with the matter. The boys state that were promised \$6 a day and instead found they would only get 3 cents for each person counted. Hence their disgust. So there is a job for him who would ask 31 questions of a man for 3 cents.--Mail Tribune.

NATURE TELLS YOU

As Many a Jacksonville Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action. Any urinary trouble tells of kidney ills.

Doan's Kidney Pills cure all kidney ills.

James Powell, living at 124 Iowa St., Ashland, Ore., says, "For twenty years I was afflicted with kidney complaint. The kidney secretions were too frequent in action and the pains in my back were so severe that I could hardly endure the misery. There were pains through my loins and my general health was in a much run down condition. I finally procured Doan's Kidney Pills after other remedies had failed to help me and begin taking them as directed. They quickly banished the troubles and in a short time my health returned. I am now in my ninetieth year and my health is fine. I unhesitatingly recommend Doan's Kidney Pills to others."

Plenty more proof like this from Jacksonville people. Call at The City drug store and ask what customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, Sole Agents for the United States. Remember the name--Doan's.
