Rheumatism

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp, or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief—give it a trial and see for yourself how quickly it relieves the pain soreness. The medicines usually given internally for rheumatism are poisonous or very strong medicines. They are worse than useless in cases of chronic and muscular rheumatism. Sold by City Drug Store.

OREGON MINERALS.

Radium(?) Tungsten and Platinum Reported in Same Ore.

That there are valuable metals, other than gold, silver and copper, in these Southern Oregon hills is the firm belief of Henry H. Nutt, of Grants Pass, was in Gold Hill Tuesday on business connected with his Galls creek mining property. For instance, Mr. Nutt believes that not only tin, platinum and tungsten are to be found in this district, but that the rarest of metals, radium, is here also, and in quantities that will pay to mine. "The hundred pounds of ore that we sent to Swansea, Wales, from our Galls creek mine will be tested for all minerals, and as five different assays have reported radium, tin, tungsten and platinum in the same ore, we expect encouraging returns," said Mr. Nutt. He had with him some that came from Curry county, near the head of the Chitico river, that carried pitchblende, the substance in which radium is found.—News.

Eminent Authorities Say that out-door exercise is needed by the American People. That's all very well, but how can people with rheumatism follow that advice. The answer is very simple—use Ballard's Snow Liniment and the rheumatism will go; leaving you as spry as a colt. Gives quick and permanent relief from rheumatism, neuralgia, lame back and all pains. Sold by City Drug Store.

Blessings of Competition

Los Angeles has been trying to induce her two telephone companies to exchange service, so that a subscriber to either one of them will get a whole telephone instead of only half a one. At present, whoever wishes a complete telephone—one, that is, by which he can reach all other telephone subscribers must rent an instrument from both companies, and not only pay two rentals, but be driven distracted by running to the wrong telephone, or discovering that the number that he is clamoring for in a hurry belongs to the other system. The money loss to the city through maintaining two systems which in part merely duplicate each other, and which together furnish a much less satisfactory service than might be had from a single, comprehensive system, has been estimated at a large sum. The city thought the first telephone company charged too much. The only remedy it knew was the ancient panacea of competition—to get up a second company that would fight the first one, with duplication of plants that would waste generally. We should not be called upon to mention Los Angeles case unless its moral were pretty widely applicable. We read with pain that some good senators are suspicious of the Administration Railroad Bill because they think it may lessen competition among the roads. Of course the improvement of railroad service in this country has been exactly coincident with the decline of competition. We have got better service and lower rates just about in proportion as the roads have stopped fighting and submitted to public regulation. In that way only will still better service and lower rates be had.—Saturday Evening Post, April 2, 1910.
