

ARBITRATION

Succeeds Self-Redress, Individually and Nationally.

As surely as the duel has given place, among individuals, to the court of justice, will the awful arbitrament of war give way to the international tribunal; also, as a corollary to this, it may be written down that as the court of justice has back of it the enforcement of its decrees the punitive machinery of the government, so will the international court be backed by some form of international police, composed of limited naval and military forces, in which each of the signatories to the international court will be represented.

The establishment of the noble principle of international arbitration will be after all, merely a repetition in the international world of process of evolution from barbarism to civilization, which has long ago taken place in the individual national world. Far back in the beginnings of human history, the principle of self-redress was paramount. If wrong or fancied wrong was done, the injured party encompassed the death of his enemy by such ready means as might be at hand. Gradually, with the growth of intelligence, it was realized, not only that the injured party was but a poor judge of his own cause, but that the principle of self-redress was subversive of the peace and happiness of the community. It was realized, also, that the man whose brain was clouded with the smoke of furious passion, and was not so well qualified a judge as some third and disinterested party, who could look upon the case in dispute with an impartial eye, and so gradually but surely, the principle of arbitration took shape and became the stable rock on which our wonderful modern system of national jurisprudence has been erected.—Scientific American.

A Woman's Great Idea

is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate the stomach, liver and kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c. at City Drug Store.

A law to establish Postal Savings Banks will be one of the most advanced steps this country ever took, and President Taft deserves the deepest gratitude from this country in his efforts to establish these Banks, so that the man with a small sum of money can safely deposit that in the hands of the Government, where he will know it is safe, and at the same time draw a small percent interest. This is much better than wrapping it up in an old stocking or hiding it in the fire-place.
Every country in Europe has established these Banks, and they have proven an unequalled blessing, as it keeps money from being hoarded, and the same is thereby used in the commerce of the country at all times.

County Spelling Contest Closes

In the series of spelling contests for the schools of Jackson County which has just been brought to a close, the Ashland East School wins the flag in class "A" with an average of 93.213 per cent. The Bellview school stood second with 93.209, while the Butte Falls school held third place with 93.14.

In class "B", the Savage Creek school near Woodville, wins the flag with an average of 98.26 per cent. Prospect school stood second with 98 per cent, and Wellen school, district No. 51, was third with 97.6 per cent.

The prizes awarded to the separate grades making the highest percentages, each being a large framed picture, were won as follows:

Class "A."
Fourth grade, Butte Falls, Fifth grade, Ashland East school; Sixth grade, Butte Falls; Seventh grade, Jacksonville; Eighth grade, Wagner Creek. The Agate school had the highest percentage in the sixth grade, but since that school did not take the first test, the award under the rules went to Butte Falls, which had second place.

Class "B."
Fourth grade, Grove school, near Medford; Fifth grade, upper Soda Springs school; Sixth grade, Wellen school, district No. 51; Seventh grade, North Phoenix school; Eighth grade, Willow Springs school and Savage Creek school each having an average of 100 per cent, two prizes were awarded.

Following is a list of all schools and grades making an average of 90 per cent or more:

Eighth grade—Willow Springs, 100; Savage Creek, 100; Prospect, 98; Upper Soda Springs, 94.5; Table Rock, 94.22; Grove, 90.5.

These percentages are based upon the number of pupils in the classes represented, and not upon the actual number of pupils spelling, each pupil who is absent from school on contest days being charged with having misspelled all the words pronounced.
Hence these grades are lower than the actual spelling averages.

The highest percentages were made by the rural schools, but the average throughout the county was not so high as in the town schools. In the town schools the average number of words spelled correctly, based on the actual number of pupils spelling, is 91.7 out of every one hundred, while in the rural schools it is 85.9.

After Sixty Years.

After residing in Jackson County since 1851, John H. Downing has applied for naturalization papers in order that he may file upon a homestead in the county. Mr. Downing is a resident of Central Point.

Although he has just applied for his naturalization papers Mr. Downing has been a voter. He came to this country while a child, being born in England in 1848. His father was naturalized and he exercised his right to vote as his father was a citizen before he became of age. However, when he came to file on a homestead he found that he would have to produce affidavits showing that his father had been naturalized. Not having a record of where these papers were issued Mr. Downing thought that the shortest way out of his difficulty was to take out papers himself and this he has just undertaken.—Mail Tribune.
