**Portland Entertains Thousands of Festival Visitors--Livestock Show Will Continue--N. P. Will Establish Through Service to Chicago.**

Portland, Or., June (Special)—Portland is host this week for thousands of visitors from all parts of the country who are in attendance at the annual Rose Festival. Never before did Portland look so handsome, the extensive decorations put up generally about the city being unusually elaborate. The attendance is greater than at any former festival and the parades are outdoing anything previously attempted.  
 Business cares are generally being relegated during the week. The people of the city are devoting their attention to entertaining out of town visitors and are participating in the week's festivities to the fullest extent. As usual, the parades and the competitive rose show are the big events, attracting the most attention. Many people of the Northwest visit Portland during the Rose Festival if at no other time during the year and to these, the tremendous growth of the city during the past year is more impressive even than the Festival pageants. The city's progress merely reflects the general prosperity of the whole Pacific Northwest and is increasing in population and wealth because the same is true of the tributary country.  
 Uncertainty surrounding the future of the annual fair and livestock show on the Country Club grounds near this city was dispelled during the week when stockholders decided to continue the organization. The usual exposition will be held this fall. The Portland Fair & Livestock Association, has not yet become a money maker and some doubted that the annual show and racing meet would be continued. A special meeting of stockholders was held to consider this question and it was decided to not allow the project to lapse. Big plans are being made for the coming show this fall, and it is the intention of those behind the affair to it as big an attraction for that season of the year as the Rose Festival is in the spring. It will certainly be a great benefit for the whole Northwest to have the livestock show continued annually.  
 New through Northern Pacific service between Portland and Chicago has been established via the North Bank road, the new train having a running time of 72 hours, the same as the North Coast limited. A readjustment of the time schedules on the Northern Pacific line between Portland and Seattle, allowing for the joint use of a part of the track by the Oregon & Washington, the new Harriman line, will be made within a few days.  
 The O. R. & N. Co. will run a farming demonstration train through South-eastern Washington, starting from Colfax June 20, and ending the trip at Pomeroy on June 25. During the journey 22 stops of about two hours each will be made. Professors from the staff of the State College at Pullman will accompany the train and deliver lectures on improved farming methods. Residents of the sections of Washington to be visited are much interested in the coming trip.
