A Good Position

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Ore., operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details.

MINING CONGRESS

Will do much in promoting mining in the Northwest.

Sumpter, Ore., Oct. 12.—In the past few months the renewal of mining activity in Eastern Oregon has become so general that it is realized that the time is ripe for the holding of a Mining Congress or convention of the mining men of the Northwest. As Sumpter is in the heart of a district that produces more than 50 per cent of the gold taken out in the state of Oregon, it is thought to be the most logical point for holding the meeting.
 The primary object of the congress is to take up for discussion and organized action matters of importance to the mining industry in the Northwest, or of national import to mining for that matter. Men of reputation in the mining world will be here from distant points to talk on mining topics.
 The congress will be held on the 29th and 31st of this month, and the proposition is backed by the mining and business men of Sumpter. So confident are they of the success of the congress that they have contributed a large fund for properly entertaining visitors and paying expenses of the meeting. Invitations have been sent in all directions to mining and other men of note to attend, and the indications are that a large assemblage will be on hand.
 Sumpter will take the opportunity presented by this congress of showing what is really contained in the Sumpter

mining district. Attention will be directed to the great possibilities for future operations. The great scope of the district will also be made evident. Ideas of treating ore will also be advanced, and in this it may be shown what will be the best for future treatment of the vast amount of ledge matter that lies within the mountains of Eastern Oregon.
 The program of the congress has not as yet been fully prepared, but at this early date it is safe to state that it will be both interesting and instructive to every person in any manner interested in mining. Therefore a cordial invitation is extended to all mining men and people interested in mining to attend the convention.

Dr. Bell's Antiseptic Salve Good for All Skin Diseases.

A Handsome Woman

Every woman may not be handsome, but every woman should keep with care the good points nature has given her. No woman need have sallow skin, dull eye, blotchy complexion, who pays proper attention to her health. Where constipation, liver derangement, blood impurities and other irregularities exist, good complexion, bright eyes and sprightly movements cannot exist. Internal arrangements reveal themselves sooner or later on the surface. Headache, dark rings around the eyes, sallow skin, a constant tired feeling—mean that the liver and digestive organs are needing help and correction. Chamberlain's Stomach and Liver Tablets give this necessary help. They work in nature's own way. They do not merely flush the bowels but tone up the liver and stomach to fulfill their proper functions. So mild and gentle do they act that one hardly realizes that they have taken medicine. Chamberlain's Tablets can be relied upon to relieve biliousness, indigestion, constipation and dizziness. Sold everywhere. Price 25 cents.
